## THE SESQUICENTENNIAL OF THE QUARTER DOLLAR

By LILLARD W. CULVER

Each year in observing National Coin Week, the committee selects an appropriate theme to honor some phase of our national coinage. The year 1946 marks the sesquicentennial of the dime, quarter dollar, and quarter eagle. While we wish to honor all of these, the quarter dollar was selected as the theme for this year's observance.

No attempt will be made to describe the numerous die varieties—as many as ten are known in the limited number coined in 1818. An attempt will be made, however, to give information on the various types that may help collectors in preparing material for National Coin Week.

The law enacted by Congress on April 2, 1792 not only provided for the establishment of a mint but named the coins to be made and the devices to be on them:

“Sec. 9—And be it further enacted, That there shall be from time to time struck and coined at the said Mint, coins of gold, silver, and copper, of the following denominations, values, and descriptions, viz . . . Quarter Dollars—each to be of one-fourth the value of the dollar or unit, and to contain ninety-two grains and thirteen sixteenth parts of a grain of pure, or one hundred and four grains of standard silver.

“Sec. 10—And be it further enacted, That, upon the said coins respectively, there shall be the following devices and legends, namely: Upon one side of each of the said coins there shall be an impression emblematic of liberty, with an inscription of the word Liberty, and the year of the coinage; and upon the reverse of each of the gold and silver coins there shall be the figure or representation of an eagle with this inscription, ‘United States of America’.

“Sec. 13—And be it further enacted, That the standard for all silver coins of the United States, shall be one thousand four hundred and eighty-five parts fine to one hundred and seventy-nine parts alloy; and accordingly that one thousand four hundred and eighty-five parts in one thousand and six hundred and sixty-four parts of the entire weight of each of the

said coins shall consist of pure silver, and the remaining one hundred and seventy-nine parts of alloy; which alloy shall be wholly of copper."

The fact that the law named the devices that had to appear on all gold and silver coins made possible a repetition of design on coins of different denominations.

Our first quarter dollar, coined in 1796, is the only one upon which we find no symbol of dominion, war, or peace. It is of the same design as the second type dollar of 1795. Only 5894 pieces were coined. The obverse has a draped bust of Liberty facing right, with long loose hair, the two side locks drawn back and tied with a ribbon. Above is the word LIBERTY; and below, 1796. To the left are eight stars and to the right seven, representing the fifteen states. The reverse has an eagle with outstretched wings standing within a wreath of laurel branches, with the inscription UNITED STATES OF AMERICA.

Quarter dollars were not coined again until 1804 when 6739 were made. The type of this quarter dollar is the same as the third type of dollar of 1798. The obverse is the same as that of the 1796 variety, but with the number of stars reduced to thirteen, seven to the left and six to the right, the stars representing the original thirteen colonies. The reverse has the inscription UNITED STATES OF AMERICA and a large heraldic eagle with a shield of the United States on its breast and a scroll in its beak inscribed E PLURIBUS UNUM. In the right talon it holds thirteen arrows; and in the left, an olive branch. Above the eagle an arch of clouds and thirteen stars are shown, and below 25 C.

From 1808 to 1814 none was coined. The 1815 quarter dollar was the same as the second type of half dollar of 1807. The obverse has a draped bust of Liberty facing left with hair falling loosely about her

shoulders, wearing a liberty cap on the band of which is inscribed LIBERTY. To the left are seven stars; and to the right, six. Below the bust is the date 1815. The reverse has an eagle with inverted wings, bearing shield on its breast, grasping three arrows in its left talon, an olive branch in its right. A scroll above the eagle is inscribed with E PLURIBUS UNUM and 25 C is below. The inscription, UNITED STATES OF AMERICA. The size of the coins was reduced to 17 without a change in weight.

In 1831 the quarter dollar was reduced to size 15, with a corresponding increase in thickness. The devices on both the obverse and reverse were reduced to conform to the new size, and the scroll bearing the motto E PLURIBUS UNUM was omitted from the reverse.

The Liberty seated type of 1838 is the same as the dollar of 1840. The obverse has Liberty wearing a Greek chiton with neck and arms bare, seated upon a rock supporting with her right hand the shield of the United States, and holding in her left hand a pole surmounted by a liberty cap. Across the shield is a scroll inscribed LIBERTY. Thirteen

stars appear around Liberty, and 1838 below. On the reverse an eagle with wings inverted bearing a shield upon its breast, holding an olive branch in its right talon and three arrows in the left; above, the inscription UNITED STATES OF AMERICA and below QUAR. DOL.

From 1838 until 1892 the general design of the quarter dollar did not

change. In 1853, 1854, and 1855, arrow heads were placed on either side of the date to indicate the reduction in weight provided for in the Act of February 21, 1853. On the reverse of 1853 the eagle is sur-

rounded by rays. In 1866 a scroll was placed upon the reverse above the eagle with the inscription IN GOD WE TRUST. It owes its presence to the strong religious sentiment brought about by the Civil War. This motto has appeared on all quarter dollars coined since with the exception of the one coined for the Columbian Exposition. In 1873 and 1874 the arrows again appeared on either side of the date and this time it was to indicate an increase in weight provided for in the Act of February 12, 1873.

In 1892 Congress stipulated what should be on each side of our new coins and offered a prize of \$500 for a design for the obverse. Since only six weeks were allowed, many of our best artists refused to compete. The design was finally made by Mr. Barber of the mint. The obverse has the head of Liberty facing right, wearing a liberty cap, over which is a laurel wreath tied in back with a ribbon. Across the front of the hair is a fillet inscribed LIBERTY. There are six stars to the left and seven to the right with the motto IN GOD WE TRUST above the head and 1892 below. On the reverse is an eagle bearing the shield of the United States on its breast, an olive branch in right talon and thirteen arrows in left, in its beak a scroll inscribed E PLURIBUS UNUM. In the field above the head are thirteen stars. UNITED STATES OF AMERICA and QUARTER DOLLAR form the border. The five pointed star was used for the first time on the reverse of this coin. This change is probably due to the presence of the five pointed star on the Great Seal of the United States, an adaptation of which forms the reverse of this type.

The Standing Liberty quarters issued from 1916 to 1930 are considered by many to be our most beautiful silver coins. The design was intended to express the awakening of the country to the need of preparedness. On the obverse of the first type Liberty is shown front view, head turned to right, stepping through a gateway, on the walls of which are inscribed the motto, IN GOD WE TRUST. The left arm of Liberty is upraised holding a shield from which the covering is being drawn; the right hand holds an olive branch. About her head is inscribed the word LIBERTY and beneath her feet the date. The reverse shows the eagle in full flight with the inscription UNITED STATES OF AMERICA and E. PLURIBUS UNUM in the field above the eagle and QUARTER DOLLAR below. There are seven stars to the left of the eagle and six to the right.

This design was unsatisfactory and the mint was forced to suspend coining quarter dollars early in 1917. The reason for this was never made public. The Secretary of the Treasury wrote Congress about the artistic merit of the eagle and then forwarded a bill to Congress about the stacking qualities of the quarter dollar. The mint stated that dirt accumulated too easily in the old design. The act of July 9, 1917 seems to leave an element of doubt in the collector's mind:

"Be it enacted . . . . That for the purpose of increasing the artistic merit of the current quarter-dollar, the Secretary of the Treasury be, and he is hereby, authorized to make slight modifications in the details of the design . . . . No changes shall be made in the emblems or devices used. The modifications shall consist of the changing of the position of the

eagle, the arrangements of the stars and lettering, and a slight concavity given to the surface . . . . ."

When the second type of this quarter dollar appeared late in 1917 the most significant change was that Liberty was more fully clothed. Perhaps the fact that we were at war influenced the choice of clothing as the bust was covered with a coat of chain mail. On the reverse the eagle was raised and three stars were placed underneath, leaving five on each side. The only change after 1917 was made in 1925 when it was decided to lower the date to keep it from wearing off so rapidly.

To commemorate the bicentennial of the birth of George Washington it was decided to issue a quarter dollar bearing his likeness. This required an act of Congress because the Standing Liberty design had not been in use the required twenty-five years. This Act was passed on March 4, 1931. The Washington Quarter, issued in 1932 and still current, has the head of George Washington facing left on the obverse with LIBERTY above and the date below. The motto IN GOD WE TRUST is in the lower left field. On the reverse a large eagle with wings outstretched standing upon a bundle of arrows with a portion of a wreath underneath. The inscriptions UNITED STATES OF AMERICA and E. PLURIBUS UNUM are above the eagle and QUARTER DOLLAR below.

As we have only one quarter dollar that was not intended for general circulation it should be included with the others. The quarter dollar struck in 1893 for the Columbian Exposition has the unique distinction of being the only United States coin with the head of a foreign ruler. The obverse shows a crowned bust of Isabella of Spain with the inscription UNITED STATES OF AMERICA. The date 1893 is in the field in back of the head. The reverse is inscribed BOARD OF LADY MANAGERS and COLUMBIAN QUAR. DOL. and shows a spinner, kneeling to left, a distaff in her left hand and a spindle in her right.

In the last few years the quarter dollar has gained in popularity and now holds a unique place in the heart as well as the cabinet of most collectors. Choice coins are just scarce enough to offer a real challenge yet most issues are within the reach of all. For the average collector it is an ideal series.

### MEDALS OF THE PUPPET GOVERNMENT SET UP BY THE JAPANESE IN THE PHILIPPINES

The first and only medals, that have come to our attention, resulting from Japan's attempt to dominate the Far East, are those issued by the puppet government set up as the "Philippine Republic." They are briefly described as follows:

No. 1 Bronze medal struck to commemorate the founding by the Japanese, of the "Philippine Republic," on October 14, 1943. Obverse: Bust of the Philippine quisling, Dr. Laurel to left; above, JOSE PACIANO LAUREL. Signed C. Z. Reverse: In centre, the flag of the Republic; above, (in Tagalog dialect) REPUBLIKA NG PHILIPINAS; the date, 1943, below. Size 28.

No. 2 Bronze medal struck on the same occasion as No. 1. Obverse: Busts of "President" Laurel, (left), and "Ambassador" Vargas, (right), vis-a-vis; date, 1943, below; legend in the Tagalog dialect, REPUBLIKA NG PHILIPINAS SANGUNIANG TAGAPAGPAGANAP. Signed C. Z. Reverse: Sun and three stars superimposed on a triangle; at sides, KALAYAAN (wisdom) KAPAYAPAAN (peace) KATAPUNGAN (freedom). Size 28.

No. 3 Bronze medal struck to commemorate the 1st Anniversary of the founding of the "Republic." Obverse: Same as No. 1. Reverse: In Tagalog dialect, IKASANG TAONG PAGKATATAG NG REPUBLIKA NG PILIPINAS, 1943-1944, (First Anniversary of the Republic of the Philippines). Size 28.

According to our informant, there were 2000 sets of No.'s 1 and 2 struck and offered for sale at the Manila Post Office. In order to strike No. 3, 500 of the Laurel—Vargas medals were remelted. Thus the amounts struck are as follows: No. 1, 2,000; No. 2, 1,500; No. 3, 500. How many were destroyed in the sack of Manila is not known.

Dr. Jose Paciano Laurel was Justice of the Supreme Court of the Philippines under the late President Manuel L. Quezon, who escaped with General MacArthur when Corrigidor fell. When the Americans reconquered the Philippines, Laurel fled to Japan where he was later taken prisoner by the United States Forces.

Jorge Vargas was secretary to President Quezon. Under the Japanese he was elected first mayor of Manila. Later he was made chairman of the puppet "Executive Commission." His next "promotion" was to that of Philippine Ambassador to Japan. When the Japs folded and the Americans took over, he was bagged along with his fellow traitor, Laurel.

We are greatly indebted to Dr. G. C. Wee, now doing post-graduate work in this country, for the above information and for use of the medals from which the photographs were made.

### GILBERT S. PEREZ RETURNS

Editor, THE NUMISMATIST

I have thought that perhaps some of the members of the Association may be interested in the attached poem which I wrote last February when the city was being burned by the Japanese horde.

It expresses in verse the feeling that comes to one when he loses his

possessions and tries to comfort himself by being thankful that he is still alive when so many of his friends have gone. After all, he would have lost them eventually so why should he make himself unhappy because he has lost them a few years earlier than he expected?

The pleasure of beginning again at the bottom has its own advantages. Anyway it is much more interesting than collecting hogweed and other grasses to supplement the starvation rations in a prison camp.

Furthermore, who would want a collection of U. S. proof coins or mint commemoratives, or a delicately carved ivory snuff bottle after they have passed through a fiery furnace? It is much better to think of them as they were, than to see them as they are. What refers to coins also obtains with reference to humans. Why should we want to see remains? Why disturb their peaceful sleep and send them far from where they experienced their last glorious adventure. Things, mere things do not count; it is the contact and the pleasure that we experience in seeing and appreciating them that is a joy forever.

Am looking forward with eagerness to my first number of THE NUMISMATIST.

Very sincerely,

### PYRE IN MANILA FEBRUARY 1945

I am free, forever free  
From that chain-bound tyranny  
Of mere things  
My treasures, my precious jades  
My ivories of many hues and shades  
Jewelled rings,  
Ikons and vessels of silver and brass  
Goblets of chased and venetian glass,  
My bound chests  
Of camphor wood and of fragrant teak  
My yellowed manuscripts that speak  
Of wars and of ancient kings  
All—all of these things  
All—today  
In a towering billowed pyre  
Of all consuming fire  
Swept away.  
Naught else remains, it seems  
But ashes, charred coals and dreams;  
While the souls who passed away  
When the horde began to slay  
Whisper low  
O'er the shattered city's ashes  
O'er the cannons, roar and flashes;  
We are free, forever free  
From that saffron tyranny  
That lies stark and dead  
Around us  
In the shambles near the sea.

## NINETEENTH CENTURY CROWN SIZE COINS OF EUROPE: A SERIES

By John S. Davenport, Galesburg, Ill

### XII. AUSTRIA AND DEPENDENCIES

The Duchy of Austria and its appendages fell into the hands of the Habsburgs upon the extinction of the Babenberg line of Austrian dukes in the thirteenth century. From 1438, when Albert V became Holy Roman Emperor, until 1806 the rulers of Austria (Habsburgs and Lorraine-Habsburgs) but for a brief gap were also Emperors of Germany. Their power and territories increased with the centuries. A Habsburg married Mary, the heiress to the Burgundian lands; they got themselves elected kings of Bohemia and kings of Hungary; they extended their sway over the Slavic peoples of the Balkan peninsula and over the Italians in north and central Italy.

When the male line became extinct in 1740, Maria Theresa, after battling much of Europe over her rights, was forced to yield parts of her inheritance but succeeded in getting her husband Francis of Lorraine and Tuscany elected Emperor. Joseph II succeeded his father as Holy Roman Emperor in 1765 and his mother as sole ruler of the hereditary Austrian lands upon her death in 1780. He was succeeded by his brother Leopold II, who reigned only two years 1790-1792, and who was succeeded in turn by his son Francis II in 1792.

Francis almost immediately found himself involved in the wars engendered by the French Revolution. After the defeats of 1800 the Treaty of Lunéville impressed some harsh terms upon Austria. When Napoleon took the imperial title in 1804, Francis assumed the title of hereditary Emperor of Austria in August of 1804, partly in an attempt to secure unity in his various and unharmonious dominions and partly as a safeguard to give himself a position when the dissolution of the Empire, which seemed imminent, should occur. His new title was added to his coins in the same year. With the formation of the Confederation of the Rhine in 1806 the Holy Roman Empire ceased to exist, and Francis II of the Empire gave up his empty title to become Francis I of Austria. Again the coins reflect this change.

The Napoleonic wars brought further defeats, and it was not until 1813 that the tide began to turn. In 1814 Austria was able to incorporate Lombardy and Venice into the Empire, and after the Congress of Vienna she received back portions of territory ceded earlier to Bavaria and acquired the Illyrian provinces. The new coinage reflecting these enlargements first appeared in 1817 with suitable inscriptions. In 1821 scudos were first minted in Vienna and later in Milan and Venice for

circulation in Italy. These differ from the regular Austrian thalers by having smaller Austrian arms imposed upon the arms of Lombardy-Venetia. France, probably thanks to Metternich and his system, rode out the gales of 1830 and died in 1835.

Francis' son and successor Ferdinand I (1835-1848), weakminded and ineffectual, spent most of his reign with Metternich's aid in trying to quiet the unrest in all the non-German portions of his realm. The revolutionary troubles of 1848 kept Austria in a feverish state from March to November; and the Emperor finally abdicated in December. Thalers and scudos similar to those of the preceding reign were coined.

The reign of Francis Joseph, Ferdinand's nephew, was one of the longest in modern history, 1848-1916. The early years saw such successful repression that a state of absolutism marked by only a few reforms was achieved. This was followed by a series of wars—Crimean, Sardinian, Danish, Prussian—in which Austria generally lost prestige. On April 24, 1854 the Emperor married the Princess Elizabeth of Wittelsbach, a marriage which though happy at first turned into an estrangement. The Empress was assassinated in 1897.

Three varieties of convention thalers and a scudo of a single date were minted before the change in currency. The last of the old thalers appeared in 1856, after which the thaler and gulden pieces were coined on the basis established by the agreement of 1857. The first two thaler coin celebrated the opening of the South Austrian railway in 1857. The new one thaler pieces also appeared in 1857 and the two gulden coins, characteristic of Austria and some of the South German states, began in 1859. The loss of the Italian provinces produced a new reverse inscription in 1867 on the two gulden, where all the Emperor's titles were enumerated. A settlement of the long-standing difficulties with Hungary was finally achieved with the establishment of the dual monarchy and the crowning of the Emperor as King of Hungary in 1867.

The next two decades saw the coining of a half dozen issues for special events. In 1868 the Third German Shooting Match was held in Vienna and occasioned a thaler piece. In 1873 for the Vienna Shooting Match a similar issue, this time a two gulden value appeared. A thaler coin in 1877 marked the completion of the erection of the Charles Louis Inn on Mount Raxalpe. The Emperor and the Empress celebrated their silver wedding anniversary in 1879, and a coin with the conjoined heads with suitable reverse inscriptions was minted. Another shooting match piece appeared on the occasion of the first all-Austrian shooting festival held in Vienna in 1880. The final commemorative of the nineteenth century marking the opening of the silver mines at Kuttenberg depicted St. Barbara's church there; this was a two florin piece of 1887.

The gulden-thaler system was replaced in 1892 by a heller-corona coinage. Dollar size pieces in the new denominations did not appear, however, until 1900. Three different types of five corona pieces with an old head of Francis Joseph were produced from 1900-1910 plus a commemorative to mark the sixtieth anniversary of his reign in 1908. The Emperor lived on until 1916, dying in the middle of World War I. The Hungarian coinage has been treated separately.

The rulers who were Dukes of Gotschee as well as Princes of Auersperg had been granted coining rights in 1653, which they had occasionally exercised. Prince William (died 1822) produced a single issue of thalers in 1805 with his portrait and arms.

## GURK (Bishopric)

FRANZ, COUNT VON SALM-REIFFERSCHIED (1782-1822)

39 Thaler 1801  
Edge: Wreath.

Gurk, an Austrian city in Carinthia, was the center of a bishopric suffragan to Salzburg. The bishopric founded in 1072 had its episcopal residence transferred in 1787 to Klagenfurt, the capital of Carinthia. Franz, Count of Salm-Reifferscheid, as bishop issued a thaler in 1801.

## OLMUTZ (Archbishopric)

RUDOLPH JOHN, CARDINAL ARCHDUKE OF AUSTRIA (1819-1831)

40 Thaler 1820  
Edge: ET IN MINIMIS—INTEGER.

Olmütz (Czech Olomouc), a town of Moravia, was made the see of a Bishop in 1063 and was raised in 1777 to an archbishopric. It was for some years the capital of Moravia and remained into modern times as one of the most strongly fortified cities of central Europe. The third Archbishop was Rudolph Karl John, Cardinal and Archduke of Austria, a brother of the Emperor, who issued the Archbishopric's last coin, a thaler, in 1820.

The Archbishopric of Salzburg has an ancient history. By 816 its spiritual rulers had become archbishops, and in 1278 they were made imperial princes by Rudolph of Habsburg. The right to coin money was granted to them in 996. The succeeding centuries saw growth in power—temporal and spiritual—until the archbishopric became a center of the anti-Reformation reaction. Wedged in between Austria and Bavaria, Salzburg usually sided with the Habsburgs in their controversies with the Wittelsbachs. By the Peace of Lunéville (1801) the see was secularized and turned over as an electorate to Ferdinand, Archduke of Austria and Grand Duke of Tuscany. After the Peace of Pressburg (1805) it went outright to Austria, but was given to Bavaria four years later, only to be returned again in large part to Austria in 1816.

## CATTARO (City)

- 43 10 francs 1813. Type of 44.

Edge: Numerous combinations of the letters PM, P, N, and d in and out of squares, with and without periods, and normal, reversed, and up-side-down.

- 44 5 francs 1813

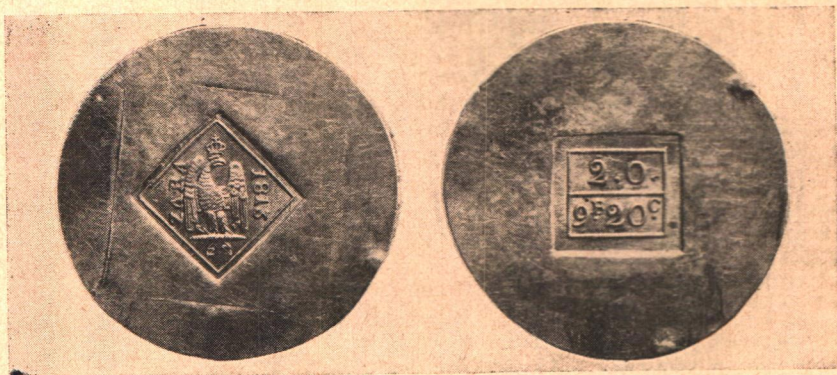

Edge: Same as 43.

Cattaro, a seaport in Montenegro, had become Austrian in 1707. In 1805 it was given to Italy but occupied in 1806 by the Russians. From 1807 to 1813 it was a part of the French Empire. In this latter year a force of Montenegrins aided by the British fleet stormed and took the city, holding it for five months. During the siege the French forces under General Gautier issued two necessity pieces. In 1814 the city was restored to Austria.

## ZARA (City)

- 45 18 francs 40 centimes (4 ounces) 1813. Type of 46.

Edge: With various combinations of the initials SB, MF, and SP, sometimes omitted and sometimes up-side-down.

- 46 9 francs 20 centimes (2 ounces) 1813

Edge: Same as 45.

- 47 4 francs 60 centimes (1 ounce) 1813. Type of 46.  
Edge: Same as 45.

Zara, the most important port on the Dalmatian coast, was long an appendage of Venice. With the extinction of the Venetian Republic in 1798, it passed to Austria. In 1806 Napoleon set up the Illyrian Kingdom, comprising parts of the Balkan peninsula including the modern province of Dalmatia and the then Republic of Ragusa. Marmont was sent by the Emperor as administrator. In the midst of Napoleon's reverses in 1813 the Austrians besieged the port. The French issued three necessity pieces of the same general design but very unusual values. In 1814 the French evacuated and the city was incorporated in Austria.

# CONFEDERATE STATES OF AMERICA PAPER MONEY: CLASSIFICATION AND LISTING

## PART XIV

(Continued from January number)

### Counterfeit, Facsimile and Bogus Notes

In earlier articles of this series \* the existence of many counterfeit and facsimile notes was pointed out and the conditions favorable to their appearance were explained.

In the following treatment of this broad, interesting subject both counterfeits and facsimiles will be classed as "counterfeits." Bogus notes carry designs never authorized by the Confederate Treasury, are few in number, but the intent to deceive is evident.

Ordinarily the distinction between "counterfeit" and "facsimile" is that a counterfeit is an imitation intended to deceive or to be accepted as genuine, while a facsimile is an imitation to be used in a legitimate way, such as a specimen, a curio, or a memento. However, many imitations of Confederate notes are labeled "Facsimile" in a margin which can be easily clipped off, thus permitting a change from the original character to that of a counterfeit. Some of the spurious notes are found with printed facsimile signatures and serial numbers and might have been intended as legitimate facsimiles. However, other identical imitations are found with the spaces for signatures and serial numbers left blank. These notes obviously were intended to become counterfeits by clipping off the tell-tale margin and forging autograph signatures and serial numbers. Many counterfeit notes which have evidences of considerable usage and acceptance as genuine are identical with unused notes marked "Facsimile" on a margin. With the large number of individuals authorized by the Secretary of the Treasury to sign "for Register" and "for Treasurer," suspicion of forged written signatures was unlikely.

In a considerable percentage of the counterfeits, the design and detail of the genuine note were quite accurately copied, not too difficult a task with those genuine notes which were produced by the lithographic process. Other counterfeit notes were so inaccurate and crudely executed that, whether labeled "Facsimile" or not, their spuriousness today is apparent at a glance or immediately upon comparison with a genuine note.

However, in those war-time days almost eighty-five years ago, the likelihood of detection was greatly lessened by the multiplicity of diverse designs of notes of the same denomination that were in circulation at the

\* November, 1944, page 995, January, 1945, page 8.

same time. For example, there were seven types of the \$5 note, nine types of the \$10 note and five types of the \$20 note of the September 2nd, 1861 Issue. Under similar conditions today a major counterfeiting problem would exist.

The extent of the counterfeiting traffic is exemplified by the existence of at least four different counterfeits of the \$20 square-rigged ship note (Type No. 131), as well as three different counterfeits of the \$20 Industry seated behind "20" note (Type No. 133). All of these are excellent imitations but fortunately have various tell-tale differences which distinguish them from the genuine.

The following circular of 1862 and letter to Dr. William Lee, reproduced from Dr. Lee's history of the Confederate currency, graphically tell the story of the "facsimiles."

### MENTENTOS OF THE REBELLION.

#### REBEL NOTES and POSTAGE STAMPS.

☛ The undersigned has published FAC-SIMILES of thirty-five different Rebel Notes and Postage Stamps, which will be found curious as well as interesting mementos of the Rebellion.

☛ Perfect FAC-SIMILES of the originals (printed on French paper, in red, green and black ink,) sold by the 100 or 1,000 at the following low rates—

50 CENTS PER 100, OR \$5 PER 1,000.

☛ The \$1, \$2, \$5, \$10, \$20, \$50 and \$100 notes, printed from same plates on bank-note and bond paper, with the numbers left blank to be filled in by the purchaser, at \$1.50 per 100, or \$10 per 1,000.

N. B.—Agents and others ordering by the 100 or 1,000, to be sent by mail, are required to enclose, in addition to the price of the notes ordered, 18 cents to prepay postage on each hundred ordered.

#### SPECIAL NOTICE.

*The \$5 (two kinds), \$10, \$20 (two kinds), \$50 and \$100 Rebel Notes, printed from NEW PLATES, on best quality bank-note and bond paper, with numbers blank and signatures omitted if preferred—perfect FAC-SIMILES of the originals—will be furnished at \$5 per 100, or \$40 per 1,000 notes. Specimens of the notes from the new plates sent post-paid to any address on receipt of 50 cents, and for \$1, specimens of all varieties will be sent.*

☛ *Persons ordering the notes will please state whether they want those from the new or old plates; and if from new plates, whether WITH or WITHOUT signatures.*

☛ All orders by Mail or Express, promptly executed. Address  
S. C. UPHAM, 403 Chestnut St., Philadelphia, Pa.

#### NOTICES OF THE PRESS.

"REBELDOM HIGHLY INDIGNANT.—'YANKEE TRICK.' The Rebel papers contain the following:

"PHILADELPHIA CONFEDERATE BONDS.—Detective Goodrich, of the Rebel

Treasury Department, has exhibited to the editor of the *Richmond Dispatch* what he terms 'the last and grossest piece of Yankee scoundrelism, and an infernal means to discredit the currency of the Southern Confederacy.' 'It consists,' says the *Dispatch*, 'in well executed counterfeits of our five dollar Confederate notes, struck off in Philadelphia, where the news-boys are selling them at five cents a piece. This note is well calculated to deceive, and in nearly every particular is a fac-simile of the original. We caution persons receiving this money to be exceedingly careful, as there is no means of knowing to what extent they have been circulated.'

'The "Yankee Scoundrel" who has counterfeited these VALUABLE notes is Mr. S. C. Upham, 403 Chestnut Street. He has issued fac-similes of seven kinds of rebel shinplasters and two denominations of their notes. He has also issued exact copies of rebel postage stamps of three kinds, the five and ten cent stamps issued by the Confederate Government, and the five cent stamp got up by J. S. Riddell, the postmaster of New Orleans, and bearing his name. Mr. Upham sells these fac-similes very cheap, but they certainly bring as much as the originals are worth.—*Philadelphia Evening Bulletin*.

■ SAMUEL C. UPHAM, of Philadelphia, advertises that he will sell Confederate notes at easy prices. We at first thought that he had taken some of them for a very bad debt, but it appears he has executed fac-similes which he disposes of as mementos. The rates offered by Mr. UPHAM are very moderate, and yet we assure all who are anxious to speculate, that his lithographed notes are worth just as much as those issued by Jeff. Davis.—*Louisville Journal*.

No. 25 SOUTH EIGHTH STREET,  
Philadelphia, October 12, 1874.

DEAR SIR: Your letter of the 3d instant, asking when I first commenced printing *fac-simile* Rebel notes; the number I printed: if I was the only person who printed those *fac-similes*; and if any of the designs were original with me, is received, and in reply I have to state that I commenced printing *fac-simile* Rebel notes in the early part of the month of March, 1862. By reference to my memorandum book I perceive that I printed from the 12th of March, 1862, to the 1st August, 1863, one million five hundred and sixty-four thousand and fifty *fac-simile* Rebel notes, of denominations ranging from five cents to one hundred dollars, and presume the aggregate issue, in dollars and cents, would amount to the round number of *fifteen millions of dollars*.

In the year 1863 two individuals in New York (Haney & Hilton, the former since deceased) copied several of my *fac-simile* notes, and I have been told, sold large quantities to bogus Jew cotton brokers and other scalawags, who passed through the Confederate lines and purchased cotton from the Rebel planters. None of the designs of the notes were original with me. My *fac-similes* were all engraved from original notes, for some of which I paid three times their face value in gold.

Perhaps it may interest you to learn why and how I came to publish *fac-simile* Rebel notes. I will inform you as briefly as possible.

In 1862 I occupied the premises No. 403 Chestnut Street, where I sold patent medicines, perfumery, stationery, and newspapers, foreign and domestic.

In the early part of March of that year there was a great demand for a certain issue of the Philadelphia "Daily Inquirer," published by Wm. W. Harding, Esq. The demand for the paper was so great, even after the edition had been exhausted, that I had the curiosity to ask a customer what that particular issue of the *Inquirer* contained that caused so great a demand for it. He informed me that it contained a *fac-simile* of a \$5 Confederate note, the first that had been seen this side of the rebel lines. I immediately called on Mr. Harding, purchased an electrotype plate of the \$5 note, and had three thousand copies printed on French letter paper. They sold like "hot cakes," at one cent each. I supplied the trade at fifty cents per hundred notes. On the margin of

each and every note was printed "*Fac-Simile* Confederate notes sold, wholesale and retail, by S. C. Upham, 403 Chestnut Street, Philad." This \$5 note was of the date of September 2, 1861. The next note, a "*fac-simile*," was the \$10, of the date of July 25, 1861. This note was first engraved by Frank Leslie, of New York, and printed in his *Illustrated Newspaper* in March, 1861. I purchased an electrotype plate of the \$10 note from Mr. Leslie, and struck off impressions on French letter paper, which I sold at same price as the \$5 note. I made no distinction in price in consequence of the high denomination of the note. I sold a \$100 *fac-simile* note at the same price I charged for a five-cent shinplaster. I sold the notes as curiosities—mementos of the rebellion—and advertised them as such in several of the most widely circulated papers in the Union. I enclose one of my circulars to the trade, with several notices of the press. I printed in all twenty-eight different varieties of *fac-simile* Rebel notes and shinplasters, and fifteen different postage stamps.

During the publication of those *fac-simile* notes I was the "best abused man" (by the rebels) in the Union. Senator Foote, in a speech before the rebel Congress, at Richmond, in 1862, said I had done more to injure the Confederate cause than General McClellan and his army. Since the close of the war I have learned that President Jeff. Davis during the rebellion offered a reward of ten thousand dollars for my *corpus*, dead or alive.†

Respectfully, yours,

SAM'L C. UPHAM.

Especial attention is directed to the better executed imitations of notes, both those produced and distributed secretly and those printed and offered for sale as facsimiles, which either were in actual circulation in the South or today might be considered genuine Confederate Treasury notes.

In the detection of counterfeit notes several sources of information are available, some of which afford clear proof of illegitimacy, but others indicate only a presumption of doubt which must be confirmed by detail study and comparison with similar notes known to be genuine.

One source of information for detecting counterfeits is the existence of identical "facsimile" notes, referred to above. Another source is notes stamped "Counterfeit," presumably by Confederate Treasury authorities. Newspaper references of that time\* provide useful identification details. Fortunately, every genuine note has written or stamped numbers and (except for the 50c notes, Nos. 301 and 401) bears autograph signatures. The Registers of Confederate Treasury notes record plate letter-number, serial number and signatures on the notes of all issues. Genuine notes should have a plate letter-number, serial number

---

\* See THE NUMISMATIST, January, 1922, page 44.

† (Author's note: Of the notes referred to in Upham's letter, the \$5 is listed below as #C1-114 and the \$10 as #C1-109. The issue of the Philadelphia "*Daily Inquirer*" was Feb. 24, 1862 and the issue of Leslie's *Illustrated Newspaper* was January 11, 1862. Obviously, the date of 1861 is in error.

and signature combination in accord with the Register. However, this Register information is neither in convenient form nor available for ready reference.

Suspicion of the illegitimacy of a note may arise from its unusual freshness, from the details of design and the quality of execution, or from the appearance of the signatures. Ink colors on genuine notes were not constant under the supply and printing conditions in the Confederacy. Little weight should be given to small differences in note size, as the shrinkage of papers is variable. The kind of paper is only slightly helpful, as the genuine notes of several types often were printed on papers of different kinds and weights. However, watermarked paper is considered very definite evidence of a genuine note.

Major reliance must be placed upon the differences between the details of the design, printing and signatures of the spurious note and those of the corresponding genuine note. Primary comparison is made with the genuine note of the same variety and plate letter-number as the "suspect."

Even in the most skillfully executed counterfeit there are design and engraving differences which distinguish it from the genuine. These differences are inevitable. They result from the extreme difficulty of making an imitation accurate in every minute detail, particularly with the methods available in those days. In vignettes of portraits, slight differences in execution may produce marked differences in expression, light and shade or position. The geometrical lathe work of medallions and rosettes, the shading of labels and lettering all are productive of clues for distinguishing between genuine and false. Although many of the genuine notes produced by the lithographic process show variations in the location of these design components, fortunately each component was generally transferred to the printing stones from a single "master" design which persists through the varieties of that particular type.

Haste, lack of close attention to detail and frequently carelessness, account for some defects which are glaringly obvious, *after thorough examination has disclosed them*. Generally the quality of workmanship of the counterfeits is inferior, but in a few cases it appears superior to the genuine.

If, as seems probable, the counterfeit was usually printed from a one-subject plate or stone, while most of the genuine notes were printed from a multiple-subject plate or stone, there may be resultant differences that are useful for detection. Genuine notes often show the frame line of an adjacent note printed on the same sheet and, at the top, part of the downward sweep of an autograph signature on the note next above, both unlikely to have been "faked" on the singly-printed counterfeit.

The following listing and description of counterfeit and bogus notes has been derived from study of an extensive collection in the author's possession, reference to another large counterfeit collection, printed literature on the subject and comparison with genuine notes. However, it is suspected that other counterfeits may be known to other readers of THE NUMISMATIST or may be discovered from time to time by collectors. The publication of this material it is hoped will encourage further investigation and bring additions to our knowledge of the subject.

For the purpose of systematizing the listing of these counterfeit notes and in order to provide flexibility for the discovery and inclusion of

others, each type and variety of counterfeit note will be designated by "C" followed by 1, 2, 3, etc. to indicate different counterfeits of the same type of note and then the Type Number of the corresponding genuine note, preceded by a hyphen. Thus counterfeit notes of the \$20 square-rigged ship September 2nd, 1861 Issue (Type No. 131), would be designated #C1-131, #C2-131, etc. A bogus note will be designated by "B" preceding a number. For example, "B-110" denotes a bogus note pertaining to, similar to, or the same denomination as, the \$20 square-rigged ship, Type No. 110 of the July 25th, 1861 Issue.

One of the inaccurate, crudely-executed counterfeits is reproduced in part, together with a corresponding genuine note, in Figure No. 17. This is typical of the easily detected counterfeits.

### MILITARY CURRENCY—SUPPLEMENTAL YEN

Military Currency in the form of supplemental yen has not been in use here on Okinawa since 1 April of this year and others might like to hear of some of the aspects of this new U. S. currency. It is the first truly different American money used in the Pacific war, though the Hawaiian overprint was a modification.

As most readers probably know there are seven denominations—10 and 50 sen, 1, 5, 10, 20 and 100 yen. The rate of exchange was originally set at 10 yen to the dollar but on 4 September, 1945, we held "C" day and the rate was changed to 15-1. The resultant devaluation was absorbed by the government in the following manner: On 3 September all money was taken in from troops by paymasters at 10-1 and a receipt in dollars was given. All financial organizations were closed on 4 Sept. so that on the 6th the same money was returned with a 50% "bonus." To say that confusion reigned would be putting it mildly. Most men had just become acquainted with the old rate long enough to have that mastered and at present writing the majority still have to use pencil and paper to figure out any transaction over \$1.

Of course Army and Navy regulations require PX and Ship Store prices to be posted in the "yen price" but all accounting must be done in dollars so a truly involved double entry set of books must be kept. Just recently another directive has come out defining the rate per yen as \$.06667 so now paymasters lose 2/3c on each payment of up to \$120. (Figure it our yourself).

The deflation caused some inflation too as almost all poker and "crap" games are now on a \$2 limit (or minimum) as it becomes too complicated to bet "two bits" (3 yen, 75 sen) particularly since there are no 5 sen notes.

The reaction of the natives to this new currency was demonstrated rather forcibly in the early days of the campaign when the children would offer a 1 yen note (U. S.) for a pack of cigarettes but wouldn't give a 50 sen note of Imperial Japanese Yen. By now they are forced to interchange the money since most of their money has been taken as souvenirs.

The United States Government stands to show a handsome profit on this money as most men have sent at least a dollar or two home for remembrances. Conservatively speaking I would say that at least 500,000 men have been "exposed" to this new money at this Island alone. One man went so far as to inscribe "Merry Christmas From OKINAWA" on the reverse of the 10 sen notes, and sent them out as Christmas cards.

The money differs from other monies in that it has no value in U. S. dollars or any U. S. backing. The only inscription is on the reverse where it says "Issued Pursuant To Military Proclamation."

## THE SOVEREIGNS OF THE BYZANTINE EMPIRE

BY MARION E. HARRISON, II

The Sovereignty of the Byzantine Empire is quite different from that of Rome even though it is the continuation of eastern Rome. In addition, the Byzantine Empire is not generally thought of as being so glorious and brilliant as Rome and not as much has been written about it. The great majority of the knowledge we have concerning the Byzantine Empire has come from the works of modern researchers and historians rather than those of the past.

An Oriental air is definitely a predominating factor in Byzantine history regardless of the fact that today we do not consider Turkey and Asia Minor as being Oriental; Greeks and Persians both are paramount in Byzantine history and the various barbaric and semi-barbaric peoples constantly invading must be not passed over in importance and influence.

The Empire of the East begins under the Emperor Valens (364-394). Theodosius I was Emperor of all Rome from 394 until 395, then with Arcadius (395-408) it returns to the divided system. It is generally agreed upon that Arcadius was the first Emperor of the Byzantine Empire although some historians consider Leo III (717-741) as the first. It is true that he is the first Eastern emperor to conscientiously rule, his predecessors usually merely let the Empire slowly drift into the course of the Empire of the West.

Of numismatic interest is the fact that he not only centralized the entire government, but also made himself and all succeeding emperors virtual ministers of finance. Leo's policies throughout the Empire were for the betterment of the majority, but firmness and action were his by-words. ". . . There can be no doubt about the stringency of the measures adopted in Greece and Italy . . . he (Leo) confiscated to the profit of the treasury a tribute of three talents and a half of gold which had been remitted annually to Rome . . ."<sup>1</sup> Due to the calamitous earthquake of 740 a tax was begun which "was called the dikerton, because the payment appears to have been generally made in the silver coin called keratia, two of which were equal to a miliaresion, the coin which represented one-twelfth of the nomisma, or gold byzant."<sup>1</sup>

Much of the credit due for keeping the Moslems from Europe belongs to Leo's armies although Charles Martel and the western Europeans receive most of it because of the glorious legends surrounding them. Since little literature of the Isaurians is to be found, it is only natural that their history would be rather darkly looked upon.

Constantine V (741-775) succeeded his father and is not favourably regarded, as far as personality is concerned anyway. However, many constructive acts were accomplished during his reign even though the manner by which many of them were instituted is not particularly favourable.

Leo IV lasted only four and a half years due to ill health, and his wife, Irene, was regent for his son, Constantine VI; then she dethroned him and ruled herself (787-802). Nicephorus I (802-811) deposed Irene and was temporarily succeeded by Stravakios (or Stauracius) who was conveniently disposed of in a monastery after two months on the throne.

Michael I (812-813) followed him to the throne and was also disposed

of in a monastery, whence Leo V (813-820) succeeded him and had a rather eventful reign. He was sliced to death in a church by assassins as he defended himself before the communion-table with a crucifix in hand. "Few sovereigns of the Byzantine Empire seem to have exerted themselves more sincerely than Leo V . . . yet few have received less praise for their good qualities."<sup>1</sup> His wife and children were also cast into a monastery.

Michael II the Stammerer (820-829) founded the Amorion Dynasty which lasted until 867. The last two or three years of that Dynasty are often referred to as the Period of the Iconoclasts. The Period of the Power and Glory of the Byzantine Empire (867-1057) commences with the Basilian Dynasty under Basil I of Macedonia (867-886).

From 963 to 1025 is the Period of Conquest and Military Glory. Regardless of the fact that Basil II (976-1025) reigned for a long period of time (Gibbon says sixty-six years) his is one of the most obscure reigns. Very little is known about Constantine VIII (1025-1028, before that jointly) either.

Romanus III (1028-1034), Michael IV (1034-1041), Michael V (1041-1042), and Constantine IX (1042-1055) were all husbands of Zoe, who reigned with Theodora in 1042. Michael VI (1056-1057) and Theodora (1054-1056) added to the complications of the sovereignty of the period.

Isaac I Comnenus straightened out the complications by eliminating the complicators and in 1204 the so-called Latin Empire was founded by the Crusaders with the Earl of Flanders, Baldwin I (1204-1206) as Emperor. The Frenchmen Henry I (1206-1216), Peter de Courtenay (1216-1221), Robert de Courtenay (1221-1228), and Baldwin II (1228-1261) compose the entire sovereignty of the Latin Empire.

The Greek emperors fill out the remaining years of life of the Byzantine Empire. From 1204 until 1261 the Greek emperors resided at Nicaea, but they returned to Constantinople in 1261 when they disposed of the Frenchmen there.

The oncoming Turks finally accomplished their goal and conquered Constantinople (1543) and thus "the decline and fall of the Roman Empire" was completed.

The history of the Roman Empires during their fourteen hundred years of existence comprise a whole world of numismatics. The gold coins of the Byzantine Empire are not too uncommon even today considering the long period of time which has elapsed since its fall.<sup>2</sup>

## ROOSEVELT DIME PUT INTO CIRCULATION

Special Dispatch to The Numismatist from the United States Treasury Department.

Limited quantities of the new Roosevelt dime were released on January 30, the date of the late President's birthday. Designed by John R. Sinnock, the Mint's chief engraver, it is exactly the same size and metallic content as the dime now circulating.

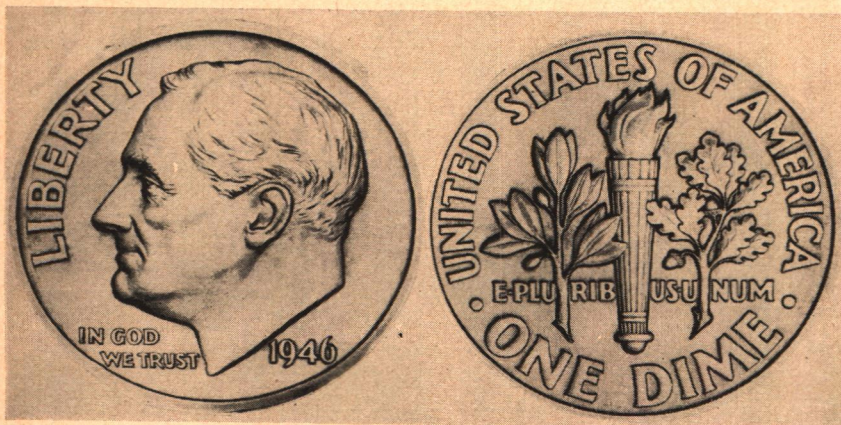

Illustration from the artist's sketch

The "head," or obverse side, bears a portrait of Mr. Roosevelt facing left, the word LIBERTY around the left border, in the lower left field IN GOD WE TRUST, and the date, 1946, in the lower right field. The initials of the engraver J. S. appear at the base of the neck, directly to the left of the date.

The reverse side carries the torch of liberty centered with the olive branch of peace on the left, and to the right the oak branch signifying strength and independence; inscribed around the upper border is UNITED STATES OF AMERICA; around the lower border ONE DIME; across the lower field appears E PLURIBUS UNUM.

The winged Liberty head dimes now outstanding will continue to circulate, Mrs. Ross said; but no more will be minted. The first ten-cent coins bearing the pattern created thirty years ago by Adolph A. Weinman, were struck in 1916. As of late December, 1945, when the last of the Liberty dimes passed through the presses, the Mint had put out a total of 2,677,232,448 of these coins.

The new Roosevelt dime is the fourth portrait coin in the present series, all of which honor former presidents. The others are the Lincoln cent, the Washington quarter, and the Jefferson nickel.

John R. Sinnock, designer of the new Roosevelt dime, was appointed chief engraver of the Philadelphia Mint in 1925 after two years as assistant chief engraver. Known as one of the country's great artists in this highly specialized field, Mr. Sinnock has produced outstanding medals of the Presidential series, various commemorative medals, and designs used on several of the medals for the nation's war heroes, including the Purple Heart, considered by many to be the most beautiful of all such awards.

Mr. Sinnock was born in 1888, at Raton, New Mexico. He studied art at the School of Industrial Art in Philadelphia where he won the A. W. Mifflin scholarship for study abroad. Prior to joining the Mint he was an instructor in art for 10 years at the School of Industrial Art and at Western Reserve University.

**John R. Sinnock, Chief Engraver of the United States Mint**

Among notable medals which he designed are the special Congressional gold medal honoring Thomas A. Edison; the Yangtze medal for naval and marine Corps personnel serving in 1926-27 and 1930-32 in the Shanghai-Yangtze area and the Ellsworth-Amundsen-Nobile medal commemorating the north polar flight of the dirigible Norge. He sculptured medallion portraits from life of Franklin D. Hoosevelt, Herbert Hoover and Calvin Coolidge for the Presidential series; and of Treasury Secretaries Mellon, Mills, Wooden and Morgenthau for this traditional series of medals.

The Roosevelt Memorial medal recently issued is his design, and Mr. Sinnock currently is working on a Truman Presidential medal, and a Vinson medal of the Treasury Secretary series.

His design of a medal, "Vanguard of the Nation" was purchased by the French Government. Among the commemorative coins, Mr. Sinnock designed the half dollar and \$2.50 gold piece celebrating the Sesqui-Centennial of American Independence, and the reverse of the Illinois Centennial half dollar. Mr. Sinnock has won many awards in national competition in his field.

### ASSISTANT DISTRICT SECRETARIES APPOINTED

To aid in the promotion of our Association by providing additional correspondents, President V. Leon Belt wishes to announce the appointment of sixteen Assistant District Secretaries.

Selected by the various affiliated Corporate Clubs, these Assistants should do much to ease the burden carried so long and faithfully by our regular District Secretaries. They will also assist in publicizing and expanding the educational program of the A. N. A. This list is not complete as other Corporate Clubs have yet to select suitable correspondents.

## JOINT MEETING HELD ON WEST COAST

A scintillating potpourri of high jinks numismatica, seems a proper description of the joint annual banquet held on the evening of January 15, 1946. The host on this occasion was the Orange County Coin Club; the meeting place, the Woman's Club House at Brea, California. Under the leadership of Secretary Glen Curtis and his committee, the banquet eclipsed any former gathering of this nature, combining as it did, many different forms of appropriate entertainment. The program had originally been arranged by Howard Bowers of the Orange County club, whose untimely death on January 1st was a subject of universal regret.

Left to right: Harry Hanson, Adolph Larson, Jr., Dr. C. L. Emmons

The banquet itself, was a sumptuous fried chicken dinner. In addition to the presence of champagne and other epicurean delicacies a rare collectors item known as butter, graced the menu, imported through devious channels from a great distance. The program opened with the singing of America, and a greeting by the retiring president of the Orange County group, Robert Efker. Thereafter the action gained such momentum that the laws of gravitation and equilibrium were threatened with complete annihilation.

It may be incidentally noted that the programmed itinerary bore but little resemblance to the actuality. For example, Senator Jones of Arkansas was scheduled to deliver an address in connection with the installation of officers, but at the proper moment the good senator was found to have mysteriously disappeared. However, the joint installation went forward under the able direction of President Adolph Larson, Jr. after he had been duly installed as the executive officer of the California Coin Club. A royal crown embel-

lished with seven stars representing his presidential service, was placed on Mr. Larson's head. Following the coronation, the officers of both clubs took the usual oath of office. Supporting President Larson for the year 1946 will be, Dr. H. A. Rosenkranz, Vice President; Attorney Earle K. Stanton, Secretary; Mrs. Ada Kleinpell, Treasurer. The Orange County Coin Club will be officered by Dr. C. L. Emmons, President; Lloyd A. Gowdy, Vice President; Dr. Glenn Curtis, Secretary; and Ralph Hillman, Treasurer.

The program, under the guidance of Harry Hanson, Master of Ceremonies, was bizarre and startling. Dr. Curtis' showing of his color films of ancient coins was rudely interrupted by an attempted address on United States cents. From then on, interruptions were the order of the evening. A Japanese gentleman broke in on the meeting and attempted to sell some rare? oriental coins; Dr. Emmons, after reading several pages of his inaugural address, discovered that he had brought the wrong speech. At a most impressive moment, two policemen pursued a masked bandit through the hall, which episode was never satisfactorily explained. Other diversifications, less violent but highly amusing, featured the entire program. There were, however, moments of sanity; numismatic bon mots were not absent, and a three act play staged and entirely acted by Lois Rees Auer is well worthy of special mention.

As on former banquet occasions, the musical part of the program was in charge of C. N. Soule, baritone, who rendered three most enjoyable solos, accompanied on the piano by President Larson. A record attendance of 125 persons sat down to dinner. The gala evening was brought to a close by an unusually interesting auction of choice and uncirculated gold and silver. The histories of these affiliated organizations disclose no numismatic event comparable to the banquet hereinbefore described.

—EARLE K. STANTON, Secretary, California Coin Club.

—C. GLENN CURTIS, M.D., Secretary, Orange County Coin Club.

## NATIONAL COIN WEEK APRIL 7 TO 13, 1946

Our goal for National Coin Week is to set an all-time record for the number of individuals and clubs participating. The theme for this year's observance will be: The Sesquicentennial of the Quarter Dollar. The dime and quarter eagle are also observing their one hundred fiftieth anniversaries, and should have a prominent place in displays of numismatic material.

Prizes will be awarded to individuals and clubs on a competitive basis, and will include the banner and ribbons offered by the American Numismatic Association, and the merchandise generously donated by prominent dealers and collectors.

Members of the committee are the following:

|                            |                                    |
|----------------------------|------------------------------------|
| General Chairman,          | Lillard W. Culver, Milwaukee, Wis. |
| Ex Officio,                | V. Leon Belt, Phoenix, Ariz.       |
| Counsellor,                | Lewis M. Reagan, Brooklyn, N. Y.   |
| Chairman Dealer Committee, | Frank J. Katen, New Haven, Conn.   |
| Chairman Awards Committee, | R. S. Yeoman, Racine, Wis.         |

Suggestions have been mailed to all Secretaries of local coin clubs. If additional information is desired, it may be obtained from your District Secretary of the General Chairman.

## DEATH OF CHARLES HENRY DEETZ

### A. N. A. No. 1581

The Association lost one of its outstanding members when Charles Henry Deetz died on January 27th, 1946. He was 82.

Mr. Deetz was born April 10, 1864, at Sellersville, Pennsylvania. He was educated at Phillips Exeter Academy and the Massachusetts Institute of Technology, taking special courses in ancient and modern languages at George Washington University.

He entered the service of the U. S. Coast and Geodetic Survey in January 1889, and saw almost fifty years of service in that Bureau. Until 1898 he executed various assignments in the field service, including triangulation in Alabama and Florida, and hydrography and topography in Florida, Massachusetts, and Maine.

In 1898 Mr. Deetz was assigned to the Washington office as a cartographer, where he became an outstanding authority in all branches of his profession. He compiled some of the most important nautical charts of the Survey, including those of New York Harbor and the Canal Zone. Many of the leading cartographers, both within and outside the Bureau, owe a great debt to him as a patient instructor, ever willing to impart his own knowledge to others, and to render all possible professional assistance.

Mr. Deetz became particularly well known in the field of map projections, and is the author of a number of books and special articles in this field. Two of the most important books, long accepted as the standard texts on their subjects, are "Elements of Map Projection" (of which Doctor O. S. Adams was joint author), and "Cartography." Among his outstanding achievements in practical cartography were his transverse polyconic projection of the North Pacific, and the Lambert chart of the North Atlantic. It is a matter of interest to note that Mrs. Deetz computed the spherical coordinates for the transverse polyconic projection. In recognition of his many contributions in the fields of geography and cartography, he was elected to life membership in the National Geographic Society in December 1942.

He was retired in 1936, after receiving two extensions. Then in 1942, due to the demands of war, he was recalled to service to revise the text of "Elements of Map Projection," which had become much in demand in connection with the training of war-time navigators and cartographers. He retired again in March 1943, before having completed the work to his own satisfaction, because of the serious illness of Mrs. Deetz.

Mr. Deetz was a member of the Philosophical Society of Washington, and of the American Numismatic Association. He had built up a fine library of some five thousand volumes, and an extensive collection of coins.

I have known Mr. Deetz over a period of fifteen years, I have always found him to have a sincere appreciation for religion, particularly when stripped of its dogma and formalities. He particularly admired the simple faith of the Mennonites, among whom he spent his earlier years. Because of their beauty of expression, he was more familiar with the Scriptures than many who have attended church more regularly.

His marriage to Clarissa Hanna Wilson was a particularly congenial one. Following her death in October, 1944, after nearly 52 years of married life, his health had steadily declined, and he departed this life on January 27, 1946, at the age of almost 82 years. He retained to the last the keen mentality and genial good humor which so endeared him to his many friends. He is survived only by one sister, Mrs. Frank Wagner, of Baltimore, whose encouragement and kindly ministry did so much to brighten these recent months. Interment will be at Sellersville, Pennsylvania.

## BANQUET HELD BY ROCHESTER NUMISMATIC ASSOCIATION

The 34th Annual Banquet of the Rochester Numismatic Association was held Saturday, January 5, 1946, at 7 p. m. in the Palm Room of Hotel Seneca, with fifty-eight members and guests present.

John J. Pittman, Association Secretary, officiated as Toastmaster. After welcoming all of the members and their guests, he read an account of the first annual banquet held in 1913, and asked that those present at the first Annual Banquet stand. Mrs. George Bauer, Mr. George Bauer and Mr. Alvin Plumb were present at the first and 34th Annual Banquet.

Immediately following the banquet and before any speeches the drawing of prizes was held. Sixty prizes of numismatic interest were awarded.

John Pittman then reviewed briefly the progress of the Association during the past year under the leadership of Barney Bloom, President of the Association.

The President of the Buffalo Numismatic Association, Mr. Gullian, and his wife were then introduced. Also introduced to the club was Mr. Gilroy of Wayland, New York, a founding member and past president of the Buffalo club.

The toastmaster then introduced President Barney Bloom who presented a bronze presidential medal of the President of the previous year to that individual—Vallance Judson. It is a custom of the Rochester Numismatic Association for the presiding President to present the first bronze presidential medal of the previous year's President to that President. After the presentation of the medal to Mr. Judson, the toastmaster then introduced Lewis M. Reagan, General Secretary of the American Numismatic Association, who gave an interesting and informative discussion on coins and coin collecting with special emphasis on his own phases of the hobby. In addition to the general discussion, Mr. Reagan also showed a number of interesting foreign

and ancient coins. A bronze presidential medal of Vallance Judson was also presented to Mr. Reagan.

After the banquet, games including bingo, bridge, and pinochle, were enjoyed by members and guests.

## YOU ARE THE RED CROSS

From Pearl Harbor to Tokyo you kept the Red Cross at his side. He still needs you—needs your Red Cross to banish loneliness in far away lands overseas.

If he's home again—in a hospital or as a veteran, your Red Cross will help him until the need no longer exists. We numismatists have organized a Division of Numismatics for the purpose of aiding the 1946 American Red Cross Fund. The Stamp Collectors did a good job—So can we!

This publication has generously thrown open its pages to support this drive. Elsewhere in this issue you will read letters from Mr. Basil O'Connor, from Leon Belt, from Lewis M. Reagan and from your Editor. Dealers have wholeheartedly agreed to donate their space towards its support. You can help **YOUR RED CROSS**.—You can keep **YOUR RED CROSS** at his side . . . overseas, in a hospital . . . or in civilian life. Ask any GI what the **RED CROSS** means and **GIVE!** Give generously. Give **NOW!**

All checks should be made out to the **AMERICAN RED CROSS** and sent to me or to any member of the committee listed elsewhere in this publication.

Your **LOCAL RED CROSS CHAPTER** will receive full credit for your contribution. **SEND YOURS NOW!**

## AMERICAN RED CROSS

NATIONAL HEADQUARTERS

WASHINGTON 13, D. C.

CHAIRMAN'S OFFICE

January 8, 1946

My dear Mr. Kosoff:

The many members of the American Numismatic Association are indeed to be commended for their keen interest in and support of the American Red Cross.

The success of the forthcoming 1946 Fund Drive will depend upon the enthusiastic well planned efforts of many splendid organizations such as yours.

Will you kindly convey my best wishes and appreciation to the American Numismatic Association for their decision to have a division in the 1946 Fund Drive. To carry on the vast program of services in the coming months we will need the financial support of all the American people. We know your members will do their share.

Sincerely yours,

Chairman

## IMPORTANT NUMISMATIC EVENTS

The Red Cross Division of Numismatics 1946 Fund Drive. The time is now.

National Coin Week. April 7 to 13.

Iowa Numismatic Association Convention. To be held in Des Moines, Iowa, May 24 to 26.

A. N. A. Annual Convention, Davenport, Iowa. August 17 to 21.

## THE PRESIDENT'S PAGE

V. LEON BELT  
Box 2231  
Phoenix, Arizona

Now is the time for all good men (and women) to come to the aid of the Iowa Numismatic Association. Get ready for the "trek" to Des Moines, May 24th to 26th, inclusive. This semi-annual convention and exhibit will be one of the outstanding meets of the early summer season. Better reserve accommodations and exhibit space immediately.

Some-time ago this office sent out requests for the naming of Assistant District Secretaries in each affiliated Corporate Club. The response has been very gratifying and a list of the new appointees appears in another part of this magazine. It is sincerely hoped that other clubs will send in their nominations as rapidly as possible.

The main purpose of this move is to have an actual representative of the American Numismatic Association in each such club. They will receive communications, program suggestions, extension library service, educational material and displays directly from the General Secretary or committee chairmen for the use and benefit of the local organization. Usually, they will be in a better position to serve the club than the regular District Secretary and while they will not take the place of such regular officer they will be of great help to him in furthering the objects and aims of the association.

Your immediate selection is urgently requested.

On January 27th, 1946, your President had the honor and pleasure of appearing in the Phoenix Indian School Auditorium to address the scholars and visitors on "What the Coin Tells." This proved to be a very interesting and pleasant experience.

The very evident interest, numerous questions and rapt attention could not help but convince one that our hobby is one of the most interesting in existence.

Hundreds of new converts, seemingly, only await knowledge of where, when and how to commence. A little missionary work in your local schools, hospitals, colleges and social clubs will repay your efforts one-hundred-fold. Why not make a call right now and offer your services, plus an interesting exhibit. Most societies are constantly searching for talent and will welcome your inquiry. If you feel that you need a little help you will find our good Librarian always ready and willing to assist you with timely suggestions and books covering the needed basic material. Now is the time, to-day is the day.

### A. N. A. CONVENTION TO BE HELD IN DAVENPORT, IOWA AUGUST 17TH TO 21ST

Due to the unprecedented demand for hotel accommodations it has been necessary to set the date for the A. N. A. Annual Convention one week earlier than originally planned. It will be held August 17 to 21.

Those who have not already made hotel reservations are urged to write at once to Loyd B. Gettys, 902 First National Bank Bldg., Davenport, Iowa. He will take care of you.

Present indications are that this coming Convention will draw a record breaking attendance. Plan to be there.

## THE SOCIETY OF MEDALISTS

## THIRTY-SECOND ISSUE

BERTHOLD NEBEL, Sculptor

## FROM THE ARTIST

Modern warfare has developed to such a degree that civilization may vanish from the earth unless there is to be better understanding among nations, and this medal was designed to help impress that thought which, I believe, is uppermost in our minds.

On one side of the medal, I have attempted to portray an American soldier who is trying to aid a wounded comrade. The other side represents an explosion intended to destroy enemy forces, but it also obliterates whole communities.

In composing the medal, I have used only material connected with this war. For instance, besides the soldier, the atomic bomb is a symbol of the most modern type of warfare. In the foreground, I have shown the disaster caused by the tremendous force of such an explosion.

## ABOUT THE ARTIST

BERTHOLD NEBEL was born in Switzerland in 1889. He studied at Mechanics Institute, Arts Students League, National Academy of Design, and at the American Academy in Rome.

*Awards:* Prix de Rome, 1914-1917; Two winning designs in collaborative competitions held annually at the American Academy in Rome; Designing of sculpture in collaborative competition for the Richmond War Memorial (World War I).

*Principal Works:* Heroic size group, "Wrestlers," executed in Rome; Sculpture designs on main dome and niches in Cunard Building, New York City; Statue of General Wheeler in the Hall of Fame, Capitol Building, Washington, D. C.; Two Congressional Medals: "Mine Rescue" and "First Aid"; Statue of General Sedgwick, Hartford State Capitol; Statue of Alexander Brown, Brown Brothers Bank, corner of Wall and Nassau Streets, New York City; Bronze doors of Museum of American Indian and the bronze doors of the Geographical Society of America; Nine limestone panels on south facade of the Hispanic Museum, representing the races who have invaded Spain, all three latter works are located at 155th Street and Broadway, New York City; "Nereid" at Brookgreen Gardens, South Carolina.

*Member:* The National Sculpture Society, The National Academy of Design.

Members of the A. N. A. are cordially invited to join The Society of Medalists. For further information write the Secretary, F. Kimmerle, 115 East 40th Street, New York 16, New York.

## THE EDITOR'S CORNER

### The Roosevelt Dime

The new Roosevelt dime won't please everybody. If it does it will have the distinction of inaugurating a new era in thinking, a condition which is highly improbable when we consider the violent objections some of our citizens have made when called upon to lick the gummed side of the recently issued Al Smith stamp.

Considering the limitations placed upon the engraver, the new dime, in our opinion, proves again that John R. Sinnock is a designer of much ability. The portrait of the late President is a pleasing one, although truncated in a definitely modernistic style. The lettering is heavier and more solid than on the winged Liberty head dime and should add to the wearing qualities of the coin.

It must be remembered that our coinage laws impose definite handicaps upon designers. In addition to the design, the new dime has 66 letters and numerals. Try arranging this number of letters on the sides of a disc 11/16ths of an inch in diameter. Then too, a coin must be designed so that it will resist wear, so that it will stack, and also fit slot machines without jamming.

For some curious reason the Roosevelt dime appears smaller than the one it replaced. We heard three persons comment that "It looked smaller than the other dime." This optical illusion is probably caused by the smallness of the field in comparison with the winged Liberty head design.

According to our coinage laws we can change this design anytime after 1971.

### Make All Checks Payable to The American Red Cross

Patriotism, patience, and generosity come readily to us during the distress of war. Then when the last

shot has been fired our ardor cools and we turn our attention to reconversion, nylons, new cars, and sundry other interests.

Of course we are all tired of war, but we are not nearly as tired of it as are the thousands of men who today lie in godforsaken hospitals, separated from their families, their health, and, in many instances, all hope for a better future.

These men need our help and the Red Cross stands ready to bring them relief, providing of course, that we support the work.

Much has been written on the subject and it would be easy enough for us to write a lot more. But rather than make the paper shortage worse than it is, we are going to write a check on a little piece of paper, supplied free by a bank, and send it along to Abe Kosoff.

All donations to the Division of Numismatics for the support of the 1946 American Red Cross Fund, will be published in future issues of The Numismatist.

### Tax Token Troubles

It looks like the State of Washington will have to put out another new tax token or be on the short end for Utah has just issued tax tokens the same size and color as the Washington ones. The catch is that the Utah tokens are rated 10 for a cent, and the Washington State tokens, 3 for a cent.

The first Washington token was issued in 1935 and since then the following have been issued: 1. blue paper; 2. yellow paper; 3. plain fiber, no hole; 4. thick fibre, holed; 5. aluminum; 6. green plastic, (now in use.)

The No. 3 issue in plain fibre is a must in every token collection as it is without doubt the worst looking token ever seen.

## NOTES AND QUERIES

### "Bob Tailed" Peso of Colombia

From Bogota, Colombia, P. K. Anderson sends us one of the most curious pieces of paper money that has been issued in modern times. It is half of a regular one peso note countermarked BANCO DE LA REPUBLICA, PROVISIONAL, MEDIO PESO. According to Mr. Anderson, these "bob tailed" notes have appeared in great numbers because of the shortage of small change. "The only 'hard' money to be seen in circulation is the copper 5 centavos, in spite of the fact that both mints are striking 20 centavos pieces."

That the idea of cutting up large bills to make small ones is not entirely new, is shown in the following excerpt, unearthed by Damon G. Douglas.

### Demi-Notes of Colonial Days

"Washington, D. C. 1817-1818.

The price was half a dollar . . . I presented a Philadelphia one dollar note; it would not be taken without a discount of  $2\frac{1}{2}$  per cent. I then tendered a Baltimore bank, of the same amount. This being one hundred miles nearer was accepted. The store-keeper had no silver change; to remedy which, he took a pair of scissors and divided the note between us: I enquired if the half would pass, and being answered in the affirmative, took it without hesitation, knowing the want of specie throughout the country, and being previously familiarized with Spanish dollars cut into every variety of size. I now find that demi-notes are a common circulating medium."\*

\* Fearon, Henry B., SKETCHES OF AMERICA, 3rd Ed., London, 1819, p. 287.

### Finds Defective Coins Plentiful

Dear Sir:

Why so much interest in the high and low 1894-S Barber halves? Even coin folders have a place for both low S and high S. There are others not only Barber halves that have a high and low mintmark. The 1915-S

has a high, low and medium S.

There is also a place in some coin folders for faint and very faint D of 1922 Lincoln cent. Yet there are others like the faint D of 1919.

I have the flag pole type of die-break on 1942-S and 1943-S and the 42-S is much better than the noted 1944-S as the hairline starts exact center top of dome and runs straight up thru S to rim.

The different articles written on "Blanked Die Buffaloes" or "Lettered Chin Indians" describe those found 1913 to 1929 and state none was found later than 1929. I have an excellent specimen in P of 1935 which clearly shows the letters under the Indian's chin. Nothing was ever mentioned about the hump of the Buffalo that also shows on some above dates. Variety seekers can get a lot of material if they look for it. All the late years of Lincoln have freakish flanged edges—some run a lot higher than planchet. The die must have fallen out and chuck hit some 1939 and 1941 Jeffersons of P mint to change their appearance.

Respectfully,

WALTER H. SCHLOTT,  
A. N. A. 11378

### Shilling Struck From Die No. 109

Question: I have an English shilling dated 1865 of Queen Victoria with the tiny numerals 109 directly over the date on the reverse. Is this a pattern or presentation piece, or what is the meaning of the number?

Answer: From 1864 to 1879 all shillings of Victoria show a number above the date. This is the "die number" and we have seen quite a few of the same date but with a different die number. As far as we know, none of them is particularly valuable.

### "Godless" Florin Coined in 1849

Question: In what year was the "Godless" florin of Queen Victoria coined? How much will one cost me?

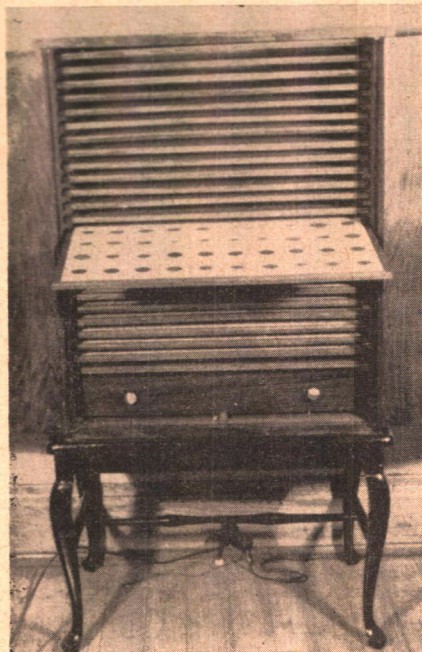

Answer: 1849. They usually bring a couple of dollars when in nice condition.

### Housing A Coin Collection

BY ALBERT J. HERMANN,  
Southgate, Kentucky.

About five years ago, I evolved, what I modestly admit, is the most perfect, ingenious, clever, fool-proof and soul satisfying method of housing a coin collection that has ever been devised, imagined, concocted or contrived by mortal man.

I shall not dwell on my miserable experiments with marble bag, cigar box, nail-studded board, coin envelopes, coin boards, coin books with slides or the sweet little girl friend who patiently sewed tiny, individual sateen bags, complete with snaps and the dates stitched in red on the front. Lest the reader misunderstand, the miserable experiments refer to the sateen bags and not to the sweet little girl friend. She was a honey. But that's another story and not to be confused with my panacea for coin housingitis.

The moment I first saw the easy display blocks, I knew that at last I was on the right track. They were both, artistic, which greatly appealed to me, and low in price, which greatly appealed to my wife, who in the matter of coin expenditures, is definitely on the Scroogey side. Combined with this, they possessed the wonderful advantage of eliminating the vacant spaces in my collection which the good Madame assures me I can fill, just as soon as the 1799, 1804 and 1856s are peddled for around three dollars per each.

However, I still had two obstacles to overcome. After arranging my proof cents in their neat little blocks, I immediately realized they were going to be exposed to oxidization, dampness, dust and also that they were going to be duck soup for my friend Louie Schraffenberger who lives next door and of whom I already possess a complete set of remarkably clear, distinct and translucent fingerprints on some of my finest coins.

This was solved by glueing small squares of isinglass over the upper half of the block, using transparent cement, such as is sold for making toy aeroplanes. By peeling off the thin top layer of the back of the block and using isinglass to cover it in the same way, I now had a coin securely sealed from moisture, dirt, and Louie Schraffenberger, and yet visible from both sides.

The second and final problem was to secure the proper type of cabinet.

As all of the cabinets I had seen advertised left much to be desired, being either too small or unsuitable in other ways, I decided to design my own.

Arming myself with forty dollars and my specifications, I hied myself to a local lumber company. The result was all that I could have desired. I now have a cabinet which contains twenty-five trays, each measuring  $20\frac{1}{4} \times 10\frac{1}{4} \times \frac{1}{4}$  inches. Forty large or eighty small blocks fit snugly in each tray. By selecting this size, the blocks can be arranged either way.

At the bottom is a drawer  $2\frac{1}{2}$  in. deep with dividers for holding my reserve supply of blocks.

I am enclosing a photograph of the cabinet and trays.

## NOTES OF THE TRADE

The collection of U. S. gold coins sold by the Numismatic Gallery, 42 East 50th Street, New York City, on January 25 and 26, totalled \$115,-380. Over 100 dealers and collectors were in attendance and many new records were established. Some of the prices realized follow:

Part V of the famous collection of paper money formed by Albert A. Grinnell of Detroit, will be offered for sale by Barney Bluestone, on March 2nd. The sale will be conducted at 224 Harrison Street, Syracuse, New York.

This section is devoted entirely to National Bank Notes and contains the finest assortment ever offered. The 1060 lots are arranged in alphabetical order according to cities. Each note is carefully described and the names of the signers are included. The catalogue, a handsome piece of work, was put out by the Bradshaw Printing Co., of Saratoga Springs, New York.

Collectors of National Bank Notes cannot very well afford to be without a copy of this catalogue along with the list of prices realized. Barney will send you both upon the receipt of 50 cents.

The most recent list of Numismatic Literature, put out by W. C. Sanders, 5 Harding Place, New Haven 11, Conn. contains many useful items on both foreign and United States coins. Mr. Sanders generally carries a large stock of back numbers of numismatic periodicals so if you need certain issues he can probably supply your wants.

David M. Bullowa, sometime associate editor of *The Numismatist*, and formerly employed by the New Netherlands Coin Company, has been discharged from the Army with which he served in Italy for nearly four years.

He recently took over the coin shop operated by Ira S. Reed of Philadelphia, and expects to be open for business about the first of March. Mr. Bullowa anticipates issuing catalogues and price lists and invites both his old and new friends to get on his mailing list. His address will be 37 South 18th Street, Philadelphia 3, Penna.

Following are some of the prices realized at the public coin sale held December 8, by S. J. Kabealo, 111 South 3rd St., Columbus, Ohio:

### THE FAIRFIELD COUNTY NUMISMATIC ASSOCIATION ISSUES THIRD PRESIDENTIAL TOKEN

The ninetieth meeting of the Fairfield County Numismatic Association was held at the Hotel Barnum, Bridgeport, Conn., November 29th, 1945. Thirteen members and guests sat down to a dinner in celebration of our Ninth Anniversary. Owing to the bad weather, we were having our first real blizzard of the season, the attendance was small, although we had planned only a family-get-together. In the absence of Leonard Kusterer, our president, Oscar G. Schilke took the Chair and welcomed those present. The highlight of the evening was the presentation of a silver token to Charles Esalnek, our third president, who we were very happy to welcome back after almost three years with the Armed Forces in Africa and Europe. Esalnek spoke briefly about his experiences while overseas. A second token, also struck in silver, was placed in the F. C. N. A. cabinet of coins and medals. Copies of this token, struck in aluminum, were distributed to those present.

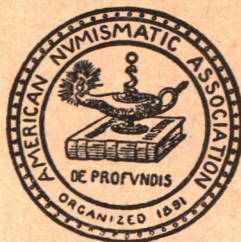

Obverse: Center—CHARLES ESALNEK, in two lines, above—THIRD PRESIDENT, below—1941-1942, surrounded by beaded circle. FAIRFIELD COUNTY NUMISMATIC ASSOCIATION, around edge, with date of organization, 1936, small star on either side.

Reverse: Center—November 19th, 1942, in two lines (the date of the sixtieth meeting) large 60, above three horizontal bars. Below the date, three horizontal bars (depicting the wait of three years before the striking of this token was permissible) below is a large V (for victory) with a small star on either side (the V and two stars designating this as our third presidential Token) below which is the date of issue, 1945. Around the edge—outside of beaded circle, SIXTH ANNIVERSARY, above, and SIXTIETH MEETING, below.

There were 100 struck in aluminum and two in sterling silver. A limited number of these tokens are available and may be obtained, at thirty-five cents each, including postage, by writing J. Norman Crosby, Secretary, 16 Herkmer Street, Bridgeport, Conn.

## REPORTS OF CLUB MEETINGS

**SECRETARIES PLEASE NOTE:** Reports should be made promptly. Copy must be received by the 10th of the month to insure insertion in the following month's issue. As a usual thing a copy of the minutes is sent in, and almost invariably a number of items of local concern only must be cancelled. The justification for publishing these accounts lies in the numismatic information—and encouragement—to be derived by collectors generally, regardless of location. On this basis we feel it advisable to revise and condense, and, incidentally, the by-product of this course is conservation of valuable space.

**ATLANTA COIN CLUB**—The 326th meeting was held Wednesday, February 6, at the Henry Grady Hotel. President T. H. Landgraf presided. There were four visitors and 20 members present.

An effort will be made to have coin supplies stocked by some centrally located business establishment in Atlanta.

Committees for 1946 were established as follows: Membership: J. J. Gonzales, Chairman; Program: O. L. Nelson, Chairman; Exhibit and Auction: Truitt Harper, Chairman; Library and Publicity: E. P. Morgan, Chairman.

Pierce Jones exhibited a number of reference works on large cents. These included an original Andrews and works by Newcomb and Doughty.

—H. H. JOYNER, Secretary

**BALTIMORE COIN CLUB**—The meeting of January 17, was called to order at 8.10 P. M. by President Straus in the meeting room in the Peale Museum, with 33 members and three guests present.

Mr. Schmidt of the Membership Committee reported on the application of Mr. E. Schulz and submitted it to the Club. On the vote, Mr. Schulz was elected to the Club and was assigned No. 112.

Mr. Smyth stated that Mr. Reagan of the A. N. A. had advised him that he would visit our Club during February or March.

Mr. Duffield stated that the banquet would be on the third meeting night ahead and suggested that the Banquet Committee be appointed. The President stated that the members of this committee would be notified during the next week.

S. Westheimer, member #42 was welcomed back after being away on military service.

Mr. Smyth had the Program for the evening and had on display 101 silver crown size coins of Mexico. Mr. Smyth had the coins arranged according to mints and had coins from all of the mints except four. In his talk, Mr. Smyth told of the Spanish influence in the world during the 16th and 17th centuries and how the rise of the British sea-power had so much to do with the decline of Spain, especially in its colonial aspects. Mr. Smyth ended his fine talk by a suggestion that the collectors could get a great deal more enjoyment out of their collecting hobby if they would avail themselves of the many books and other printed matter available. Mr. Smyth was given a rising vote of thanks for the fine program.

—JOHN R. SHECKELLS, Sec'y-Treas'r.

**BIRMINGHAM COIN CLUB**—Regular meeting held Jan. 15, in the Auditorium of the White Dairy Co., with 19 members and six guests present.

Mrs. H. O. Ames, visitor, won the attendance prize, a 1923 Peace dollar, uncirculated which was donated by J. H. Morris, Jr.

Applications for membership were received from Mrs. H. O. Ames of Birmingham and Ralph Powers, Anniston, Alabama. Both applicants were elected which brought the total of members to 48 for 1945. The club was organized with 22 members on the night of February 27, 1945 and has enjoyed a steady growth. We have averaged 25 members and visitors present at each meeting for the year and are very proud of this record.

The annual election of officers was held and the following were elected for the ensuing year of 1946: W. M. Booth, President; H. O. Ames, Vice Pres.; O. B. Hudson, Sec'y-Treas.

The new officers will be installed at the February meeting to be held at the Molton Hotel on the 19th at 7:30 p. m. at which time the banquet will be given with Lt. Spearstone presiding as master of ceremonies.

Each member at the banquet will be given their copy of our "First Year Book." This book will contain the club history, accomplishments for 1945 membership list, constitution, and By-laws. Those not present will be given their books later.

The club again thanks those persons who have been so kind and generous in donating books to our club library in response to Mrs. J. H. Morris' ad in "The Numismatist." All donations are appreciated. Visitors Welcome.

H. O. AMES, Sec'y-Treas.

**BOSTON NUMISMATIC SOCIETY**—The 764th regular meeting was held January 7, at the Boston City Club with Pres. Chell-Frost in the chair and the following members present: Messrs. Doyle, McDermott, Lowenstam, Tuttle, Hanley, Katen, Grant, Knudson, Schuhmacher, Gould, Welti, and Klein. Two guests: Mr. Flint and Mr. Bell of Albany, N. Y.

The meeting, preceded by dinner, was the first held at the Boston City Club since April, 1943. The Society voted to continue meeting here until further notice.

A motion to accept applications to membership from women was unanimously passed; the Society extends a welcome to prospective applicants.

A discussion was held and a committee appointed to look into the matter of striking an 85th Anniversary Medal in conjunction with a memorial to Shepard Pond.

A mimeographed list of the Society's cabinet is being compiled and will be kept open until March to accept donations.

Mr. Schuhmacher donated a Cincinnati Numismatic Association medal, Western Pennsylvania Numismatic Society medal and a Connecticut medal struck for the Philadelphia Sesquicentennial.

Mr. Katen has been appointed Chairman of the Prize Committee of the American Numismatic Ass'n. and was recently re-elected President of the Milford Coin Club.

—JESSE KLEIN, Secretary

**BOSTON NUMISMATIC SOCIETY**—The 765th regular meeting (the 86th Annual meeting) was held January 28, at the Boston City Club with Pres. Chell-Frost in the Chair and with 15 members and guests present.

As no other nominations were made the Secretary was instructed to cast one vote to unanimously elect the following officers for 1946:

President, Henry Schuhmacher; Vice-Pres. and Curator, Thomas Knudson; Treasurer, Malcolm

O. E. Chell-Frost; Councilor-at-large, Horace Grant; Secretary, Jesse Klein.

Pres. Chell-Frost turned the chair over to the new President, Mr. Schuhmacher, who spoke on plans for the year and appointed the following committees: Room Committee: Mr. Chell-Frost and Mr. Doyle; New England Conference Committee: Mr. Doyle, Chairman, Messrs. Grant, Tuttle, Katen, Gould and Klein.

Membership Committee: Mr. Knudson, Chairman; Messrs. Welti and Klein.

Committee to discuss Auctions: Mr. Lowenstam, Chairman; Messrs. Sonnabend, Vikre, Grant and McDermott.

National Coin Week Committee: Mr. Chell-Frost, Chairman; Messrs. Volk, Heide.

The President to be a member "ex officio" of all committees.

Mr. Grant donated to the Society's cabinet Volumes 1, 2 and 3 of the American Numismatic Series edited by Mr. Tatman and copyrighted in 1893, 1894 and 1895.

Application for membership of Rose W. Klein received and to be voted upon at the next meeting.

#### EXHIBITS:

Mr. Gould: Counterstamped fleur de les for Porto Rico on a 25c piece.

Mr. Lowenstam: SS. Stanislaus decoration al; Complete set of Siberian coinage.

Mr. Knudson: 1908 proof set.

—JESSE KLEIN, Secretary

**BRONX COIN CLUB**—The 149th meeting was held at the Concourse Plaza Hotel on Wednesday, January 23, President Clark presiding. Twenty-four members were present.

Mr. Kortjohn gave a report on the board of governors meeting held on January 15, 1946. The program of topics for the meetings up to that for the June meeting was presented. Arthur Deas, a member of the Telephone Pioneers, told of his efforts to have them adopt a point of central interest. Avocations were suggested by him and after adoption Mr. Deas arranged a numismatic night on which telephone company employees would talk about and exhibit coins.

An extemporaneous talk on Venezuela, the information on which was derived from personal experience, was given by William Fox Steinberg.

A paper, shortly to appear in THE NUMISMATIST on the subject of "Aluminum Coins" was read by Mr. Kortjohn. A profuse exhibit of aluminum coins was made by him. Applause was accorded both speakers.

Topics for the evening were the U. S. half dollars from 1866 to 1892, coins of countries beginning with the letters U and V. Exhibits were as follows:

Mr. Bernstein: San Francisco mint gold dollar of 1856.

—MARTIN F. KORTJOHN, Secretary

**BROOKLYN COIN CLUB**—The 151st regular meeting was held on January 2nd, at Gherry's Restaurant, 174 Montague Street, Brooklyn, N. Y. with President Charles Knott opening the meeting. The chair was turned over to Past President M. Klaf who acted as Installation Officer. Mr. Klaf was assisted by Past Presidents E. Kraus and M. Schwartz. The new officers were installed with a very impressive ceremony. After the installation our new President Nat. E. Heft presided.

There were eighteen members and five guests present. The topics for the evening were Coins and Medals of Longacre design, Medals of Benjamin Franklin, French Decorations and Coins of Persia and Iran. Maurice M. Faine was elected to membership. Applications were received from Mr. Hassan and Mr. Bernstein and referred to the membership committee.

Mr. Bullowa gave a talk on his collecting activities while in the army stationed in Italy.

Mr. Schwartz gave an interesting talk on Medals of Benjamin Franklin. His talk was well illustrated by a collection of Franklin Medals. After all present had described their exhibits a recess was called to inspect the exhibits.

The following exhibits were made:

Mr. Bullowa: Collection of Paper Money of all nations; New issues of Slovakia, Hungary and Bohemia.

Mr. Grunthal: Austrian First Decoration Thaler 1768; tetradrachm of Syracuse 478 B. C.

Mr. Heft: Collection of French Military medals.

Mr. Hegarty: Proof set of the Irish Free State 1928.

Mr. Knott: Eighteen Medals of South American countries.

Mr. Kraus: Korean Paper Money 10-5-1 yuan. Japan 1 sen 1945 zinc.

Mr. Kortjohn: Ten modern coins of Persia and Iran.

Mr. Schwartz: A collection of tokens and medals of Benjamin Franklin.

Mr. Silverman: Cents 1864 bronze and 1864L on ribbon both uncirculated.

Mr. Stein: A collection of ancient coins spitefully mutilated.

Mr. Steinberg: Crowns of France and Persia.

—JOHN J. HEGARTY, JR., Secretary

**CALIFORNIA COIN CLUB**—The 215th regular meeting took place on Tuesday, February 5, at Roosevelt Hall, attended by 30 members and guests. There was no scheduled speaker and the evening was devoted to a discussion of policy and plans for 1946. Among those present was M. P. Carey, one of the charter members of the club who has been absent from the meetings for some time. Mr. Carey mentioned that there were 345 A. N. A. members in California, of which 15 were present, and suggested the formation of an association composed of numismatists residing west of the Rocky Mountains.

President Larson reported that he had just acted as a judge of coin collections exhibited by the Boy Scouts, and arrangements were made to invite the Scouts to the March meeting of the club. It is planned to offer a prize for the best Scout collection exhibited next year.

Dr. H. A. Rosenkrans reported that he is working on a numismatic map of St. Paul's travels to be accompanied by an exhibit of coins representing the different countries visited.

—EARLE K. STANTON, Secretary

**CINCINNATI NUMISMATIC ASSOCIATION**—The monthly meeting was held at the Netherland-Plaza Hotel on Friday, January 25th, with President Carabin in the chair.

An application from A. W. Ault, having been approved by the Board of Governors was approved by the members. Applications from Charles C. Irish and Gus H. Habesberger were referred to the Board of Governors for action.

The important business of the evening was the annual election of officers for 1946. The results of the election and new officers are: President, James E. Gunning; Vice President, J. R. Hendricks; Treasurer, Frederick T. Potts; Secretary, George D. Parvin; Curator, Sol Kaplan; Sergeant at Arms, Charles E. Schmerber; Board of Governors: Thomas G. Melish, Chairman, Willis O. Crosswhite and the President who is automatically a member.

It was announced that the annual Washington birthday party would be held February 23rd. The meeting then adjourned for refreshments.

—G. D. PARVIN, Secretary

**COLUMBUS NUMISMATIC SOCIETY**—The 169th regular meeting was held in the Garden Room of the Neil House, Monday evening, January 14th.

Depew Head opened the meeting with a few words of welcome and then proceeded directly into the installation of the newly elected officers. Mrs. Cora Henderson was asked to take charge of the installation, she accepted and performed the ceremony in her usual adept manner.

Mrs. Henderson, elected to the newly created office of Historian, gave a brief resume of the history of the Columbus Numismatic Society.

The chairmen of various committees were named for the year as follows: Program, J. A. Dawson; Publicity, Vic Chambers; Guests, Clint Higgy; Membership, Fred E. Kern.

It was suggested by the President that members could increase the club's membership by contacting cashiers and people handling money. It is thought many of these potential members would appreciate the opportunity of joining an organized club.

Depew Head substituted for E. P. Bowers, our scheduled speaker who was unable to appear due to illness.

Exhibits were as follows:

**OMAHA COIN CLUB**—The members gathered at the home of Dr. and Mrs. J. H. Judd for their

123rd regular meeting, Feb. 5th. This is an occasion we all look forward to as it has become an Annual occasion each February.

The evening was mainly spent by members looking at Dr. Judd's marvelous collection of patterns, types, U. S. gold, rare foreign gold and silver, odd and curious money, numismatic literature including some of the early Numismatists, and many other coins, curios etc. One must see this collection, and the manner in which it is housed and arranged, in order to fully appreciate the effort that Dr. Judd has put into it. We were privileged to see some of the extremely rare patterns that are a part of this collection.

Lloyd Gettys of Davenport, Iowa, well known collector and member of the Board of Governors of the A. N. A., was on hand and he spoke briefly about the coming A. N. A. convention which will be held in Davenport. He was very enthusiastic about the Convention and hoped we would all come to Iowa at that time.

The meeting concluded with a delicious lunch served by Mrs. Judd and Mrs. Addison Wilson.

—RAYMOND MOULTON, Secretary

**OREGON NUMISMATIC SOCIETY**—The 104th meeting was held Monday evening January 14, at the Benson Hotel, Portland, Oregon with 30 members and seven guests in attendance. The meeting was called to order by the new president John R. Slusher.

Revival of the joint meetings with the Seattle Coin Club, probably at Centralia, Washington, as suggested by member Stephen Bibler who now resides in Seattle, was warmly received. All members desiring to attend were asked to report at the next meeting.

Several members expressed their views on the possibility of acquiring and housing a club library of numismatic books and publications. Enough interest was shown that the president appointed a committee to study the proposition.

Hugh Davenport advised the club that 1923-P dollars were showing up in increasing numbers.

After a short recess the drawing was held for the "White Elephant" prize which was won by Mrs. Eltinge. This was followed by Shorty Powell's dollar story and the evening quiz feature with Jimmy Padden supplying the questions. The principal theme of the dollar story was the American eagle and its appropriate place on our coins. Treasurer Powell related the story of a battle his father had had with a wounded eagle many years ago while hunting and fishing near the edge of town. The huge bird measured 15 feet between wing tips and was mounted and placed over the doorway of the Portland Hotel.

Members were urged to write their congressmen in support of Senate bill 1596 which would authorize a new coinage of gold.

Exhibits included the following:

Geo. Pipes: New Two Jima medal.

Geo. McLarty: Tray of Japanese coins including oblong and oval coins called "ichi bu" and "tempo" respectively; 17 invasion bills and several of the homeland.

Stanley Sebolt: Proof coins 1937 through 1942; Uncirculated peace dollars; and Washington quarters uncirculated 1932 to date.

Percy Smith: An outstanding collection of U. S. dollars including all types from 1776 to 1804 in extra fine to uncirculated condition. Also 1804 proof, three types Fugio dollars, 1836 Gobrecht below base, 1838-1839, 1840 proof, 1851 proof and 1860 proof.

—LLOYD L. RUFF, Secretary

**PACIFIC COAST NUMISMATIC SOCIETY**—The regular monthly meeting (359th) of the Society was held on January 30th at the Women's City Club with 29 members and eight guests present.

After disposing of the regular routine of business the Secretary announced that he has received many new books for the Library. The donors being Messrs. A. Kosoff, B. Morgenthau and Joseph B. Stack. A vote of thanks were extended to the donors and the Secretary was

instructed to write the necessary letters showing our appreciation.

The Secretary proposed Mr. A. Kosoff to become a Fellow of the Society for his generous donations of material for the Library and the great interest he is taken for the welfare of the Society. After being unanimously elected the Secretary was instructed to write Mr. Kosoff and forward the engraved Fellow-Ship Certificate. Also three new members were elected to active membership as follows: Howard M. Blake, Leo D. Grenot and A. G. K. Jakobsen.

The program of the evening consisted of a splendid talk on Chinese coins and some new discoveries by Lt. Commander H. Bowker. He displayed a large variety of Chinese coins and two moulds used for coining ancient Chinese coins about 2000 years old. In his talk he outlined the Calligraphy of Chinese coins. A vote of thanks was extended to Commander Bowker for his splendid talk.

President Lt. John E. Lenker in a talk to the members outlined the activities of the past two years and relinquishing his office turned the gavel over to Mr. Morris who acted as installation officer. As President-Elect Mr. Redfield was unable to attend, Mr. Morris installed Jack Hecht as vice president, Edward Fogler as secretary-treasurer and Cassick J. Freeman as librarian. All responded with short talks.

Vice president Jack Hecht in a very well chosen address stressed the point that the Society should go forward for a banner year and bring to a realization to get the 1949 A. N. A. Convention to San Francisco, to celebrate the Centennial of the great Gold Rush of 1849.

—EDWARD FOGLER, Secy.-Treas.

**PHILADELPHIA COIN CLUB**—The 127th regular meeting was called to order by President Willard P. Snyder at 8 P. M. on Friday evening January 11th, in the Traffic Club Room No. 225 in the Benjamin Franklin Hotel, Philadelphia with 33 members and guests in attendance.

A rising vote of thanks was extended to F. H. Hicks for securing the Traffic Club Room for our future meeting place.

The evening's chance prize, an 1856 uncirculated large cent was won by Wm. A. Schick, Jr.

The door prize, a proof 1938 nickel was won by Richard B. Farley.

Richard T. Hooper read a part of a paper on Colonial Notes which will appear in a future issue of THE NUMISMATIST. The title of the paper is "Snapshots of Colonial Note Signers." In this paper the author presented in a very graphic form the historical background of the signers of the Pennsylvania notes from 1756 to 1769.

The exhibits of the evening were as follows:

Alfred Holroyd: The new Roosevelt memorial medal recently struck at the Philadelphia Mint.

Richard T. Hooper: A very comprehensive note book containing a large collection of Colonial paper notes with a typed account of the historical background of each note.

Alfred D. Norris: Two encased Philadelphia centennial medals in proof condition, struck in tin.

Willard P. Snyder: A Lafayette plaque struck in bronze.

—ARTHUR SIPE, Secretary

**RICHMOND COIN CLUB**—The fifty-sixth regular meeting was held as usual at 8 P. M. on Wednesday, January 9 at the Byrd Park Club House, with five members and four guests present.

President O. L. Lewis called the meeting to order and then formally installed the new officers for the ensuing year, 1946, as follows: President, Mrs. Helen G. Lewis; vice president, C. H. R. Howe; Secretary, O. L. Lewis; Treasurer, Sam Levi (being absent).

Mrs. Lewis, upon taking the chair as our new President, appointed the usual standing committees for the ensuing year, after which she delivered a pep talk with regard to the importance of regular attendance at the meetings and re-

quested the newly appointed Membership Committee to get in touch with each member in good standing and ascertain the reason for non-attendance. She then stated that for the next meeting she would endeavor to obtain a speaker from the United States Secret Service to deliver an illustrated lecture on the subject "KNOW YOUR MONEY."

After the disposal of the regular business matters, attention was directed by the President, Mrs. Lewis, to the exhibits, which were as follows:

A complete type set of all United States Gold, exhibited in a beautiful frame of special design, by Mr. Howe.

Complete type sets of the United States subsidiary and minor coins by Mr. Lewis.

The President called on Mr. Howe for a discussion of the types of gold, which constituted the outstanding feature of the display.

Following Mr. Howe, Mr. Lewis made a few remarks relative to the types and varieties of our minor coins with special reference to the history of our 3c silver and 2c bronze pieces.

The foregoing remarks pertaining to the exhibits were followed by a general round table discussion of pertinent subjects for the interest and welfare of the Club as well as the new members and interested visitors, most of whom were members of the A. N. A. but temporarily residing in Richmond.

One of our guests, Colonel Campbell, offered some remarks on his experiences in connection with collectors during his recent assignments in the military service, which were quite interesting.

—O. L. LEWIS, Secretary

#### ROCHESTER NUMISMATIC ASSOCIATION—

The 758th Regular Meeting was held December 18, with President Barney Bloom presiding. Fourteen members and two visitors were present.

A report was made by Barney Bloom on the coming Rochester Numismatic Association's 34th Annual Banquet that is to be held 1/5/46.

Barney Bloom then introduced George Bauer who gave a very interesting discussion of one of his trips to the Holy Land and discussed the ancient coins pertaining to that area.

George Bauer's discussion was augmented by a beautiful display of ancient coins of Palestine and the surrounding area.

—J. J. PITTMAN, Secretary

#### ROCHESTER NUMISMATIC ASSOCIATION—

The 759th Regular Meeting was held January 15, with Vice President Frank Eichorn presiding. Fourteen members and three visitors were present.

W. Stephen Thomas, new Director of the Rochester Museum of Fine Arts and Sciences, was introduced to the group. Mr. Thomas replied to the welcome and thanked the members of the association for its telegram of congratulations. Mr. Thomas also stated that he is a numismatist of sorts and hopes to visit our meetings at frequent intervals.

It was reported that President Barney Bloom is still confined to his home and that Mr. Potter is still a patient in the hospital.

A general report on the 34th Annual Banquet of 1/5/46 was made by Frank Eichorn. Fifty-eight members and guests were present at the banquet at which time Lewis Reagan, General Secretary of the American Numismatic Association, presented an interesting message from the A. N. A.

Floyd Newell presented added information on the value of the association's numismatic collection. It was agreed that the museum should be asked to make more space available for exhibiting the association's coins.

Alphonse Kolb reported on the progress to date on the striking of the Rochester Numismatic Association's presidential medals and stated that he would have the medals ready at an early date provided he had no further difficulties with the dies.

John Pittman then introduced Charles Foster who gave a most interesting and enlightening

discussion on Confederate Currency. In addition to his discussion, Mr. Foster showed a type collection of all the Confederate currency. All specimens were in superb condition and are evidence of the time and care that Mr. Foster has spent in assembling this remarkable exhibit. After Mr. Foster's discussion ended, he was given a vote of thanks by the members and guests.

Exhibits were:

Mr. Bauer: 15 silver and bronze medals relating to early American history and English history including a silver medal for the capture of Oswego.

Mr. Foster: Complete type set of Confederate currency, extremely fine and uncirculated.

Mr. Pittman: Uncirculated set of silver and copper coins of Outer Mongolia; 2 five-franc pieces of France (in aluminum) for 1945.

—J. J. PITTMAN, Secretary

**SEATTLE COIN CLUB**—The 114th meeting of the Seattle Coin Club was held at the Hotel Gowman. Pres. Zeckser presiding, Wm. Worth as Toastmaster. It was the Annual Banquet and installation of Officers for 1946. An excellent turkey dinner was enjoyed by 38 members and visitors.

After the meal the incoming officers were introduced. John Haberlin, President; Henry Zeckser, Vice President; Howard Glickert, Treasurer; B. A. Talmadge, Secretary. Each made short talks.

Stephen Bibler then put on an excellent program. A skit illustrating an enthusiastic experienced coin collector with two raw beginners, brought the house down with laughter, came first. Next a real quiz brought out the best in our old time veteran collectors. Gerry Woods was top in this quiz. Then a regular open house quiz on double or nothing gave every one a chance at the numerous prizes offered.

There was a fine display of exhibits. Military currency used in Okinawa, Philippine Island bills, and tax tokens of the State of Washington were displayed by Paul Fouts. Others were: Walter Berge's present day Palestine coins; a Denmark gold 1738, Denmark shilling 1729, and a Norway 4 shilling 1714. A Irish animal proof set was displayed by Mr. and Mrs. Hiskins.

**WASHINGTON NUMISMATIC SOCIETY**—The regular meeting was held on Mon., Feb. 4, the minutes were read and accepted and five distinguished guests were present.

The talk of the evening was given by Dr. Riley D. Moore and the subject was "A Tropical Holiday."

Dr. Moore has just returned from a trip from Chichen-Itza, Yucatan, and Chichicosenango, Guatemala, and described the country as very

beautiful; the Dr. also explained that this little spot in the world was once the greatest of civilization and culture.

Numerous coins and revolution pieces were exhibited.

**WESTCHESTER COUNTY COIN CLUB**—The 139th regular meeting was held in the New Rochelle Y. M. C. A. on January 15. This meeting, in accordance with accepted precedent, was set aside as "ladies night" and our hardy perennial "collections other than coins" were on display. President Weidhaas presided.

Each exhibitor gave a short talk on the material they displayed, and inasmuch as most of the exhibits were of a non-numismatic nature they are omitted from this report.

Two featured talks were presented, the first by Mr. Weidhaas, on the subject of "Fluorescence," particularly as to how it relates to minerals. Various fluorescent minerals were exhibited and their powers to fluoresce were demonstrated by subjecting them to rays from an ultra-violet lamp. Atomic power being of great current interest, Mr. Weidhaas also displayed specimens of various minerals used in the production of atomic power as well as various radio-active minerals, endeavoring to clarify to some extent for those present the mysteries of atomic energy. Minerals displayed included: Willemite, Calcite, Glaucochroite, Fluorite, Opal, Wernerite, Aragonite, Hackmanite, Sphalerite, Uranite, Uranophane, Gummite, Torbenite, Autunite, Carnotite, Graphite, and Beryl.

The second talk was delivered by Professor H. C. Lott and covered "Stamps As An Investment." Professor Lott recounted incidents from his own experience in stamp collecting and felt he could state that based on such experience, stamps if purchased intelligently and judiciously were "like money in the bank" and their value would remain and increase like the best of gilt-edged securities. A very fine collection supported this talk and it would be surprising if Professor Lott didn't enlist new rooters for the philatelic fraternity.

The meeting was formally adjourned at 11:00 P. M. to enable the assemblage to converge on Mrs. Marsden's tastefully planned and arranged exhibit of refreshments. Within a short time her beautiful display looked as though it had been either overswept by a swarm of seventeen-year locusts or had tangled with some of Mr. Weidhaas' destructive atomic energy. All told it was as fine and entertaining an evening as could be wished for and many were the remarks "Why don't we do this more often?"

**WESTERN MARYLAND COIN CLUB**—The 88th meeting was held at the Central Y. M. C. A. January 16th at 8:00 P. M. with an attendance of 14 members and two guests. The meeting was called to order by President Charles. Member A. Hutter read a paper with reference to the operation of a recent gang of counterfeiters.

One of our guests was Mr. Kao Chen Chow, who is visiting briefly in this country from China. He talked to us about China's money, old and new, told us a good deal about his country, their schools, industries, and how much their customs vary from America's. Our members enjoyed his talk and invited him back for our next meeting in February.

Displays were as follows:

Martin L. Watson: Chinese and Japanese paper money and invasion money.

B. G. Charles: Chinese coins of six different dynasties; also some modern coins and a good collection of paper money issued by the Central Bank of China.

H. H. Cessna: A collection of uncirculated U. S. paper dollars.

L. Hutter: A collection of uncirculated U. S. paper \$5 denomination.

—MARTIN L. JOHNSON, Secretary

**WESTERN RESERVE NUMISMATIC CLUB**—The 298th meeting was held at the Hotel Carter January 9, with 31 members and guests present.

After a brief installation ceremony conducted by former President Bell, the following new officers took charge: Howard J. Law, president; Fred Hahlen, vice-president and Ambrose P. Spencer, secretary.

Mr. Spencer read a short paper on the significance of the Janus head on early Roman coins.

**Exhibits:**

E. G. Bell: Thirty-six coins including rupee of Akbar, token of Mary Queen of (Scots,) silver crowns; hard times tokens.

Fred Hahlen: 1 and ½ puffin coppers of Isle of Lundy.

W. M. Jacka: 1000 lira note Allied Military currency.

R. L. Poxon: \$5 Federal Reserve notes from each of the Federal Reserve districts of the United States.

Fred Roth: Japanese invasion currency, 5 to 50 centavos, \$1 and \$10.

A. P. Spencer: Roman great aes and four other coins bearing head of Janus. Dupondius of Nero with Temple of Janus.

## AN EARLY DATED COIN OF COLOMBIA

By ROBERT I. NESMITH, New York

Silver eight reale pieces struck during the reign of Philip IV, 1621-1665, at the Sante Fe de Bogota mint (Colombia) are by no means common. With the exception of a few outstanding sales, very few have ever been offered on the coin market.

It was generally believed that the earliest dated piece was issued in 1662. The Castine Hoard, which was recently recorded in the 100th Monograph of the American Numismatic Society, illustrated a specimen dated 1657 or five years earlier than any specimen we have been able to locate up to that time.

The writer has just found an eight reale of this mint dated 1656. It is unusual in more ways than one. Struck on a small thick planchet it is similar in appearance to No. 2900 in the Salbach Catalogue. The Castine piece of 1657 measures 44 mm. and weighs 418.5 grains. This 1656 piece measures 34 mm. and weighs 423 grains, which is 3 grains over the standard weight for coins of this period.

One of the most interesting details of this coin is that on the edge, which at this period was not milled, appears what looks like part of the crown as used on the reverse. This small design is incused on the edge four times at approximately opposite sides. This is the first instance where a coin with an edge decoration, of that period, has come to the attention of the writer.

## ADVERTISERS PLEASE NOTE

All correspondence relating to advertising should be addressed to the Business Manager (see above). Make all remittances payable to the American Numismatic Association.

**Advertising Contracts:** These are available, covering periods of three, six and twelve consecutive months for display space as listed in the above Table of Rates, and are necessary if the schedule of reduced rates is to apply. If the advertiser prefers not to accept the Contract, such reduced rates will be granted only upon payment in advance for the period desired.

**References:** All advertisers who submit copy for the first time are definitely requested to furnish therewith banking or other satisfactory references.

**Available Space Units:** Practical considerations restrict the allocation of space units to those listed in the above table. Any amount of space is available IF these units or a combination of them are used. Unless contrary instructions are given, copy will be cut if found too full for the space designated; if no designation is made, it shall be understood the amount of space is left to the discretion of the Editor.

**Classified Ads:** The cost is computed at five cents per word each insertion: initials (two), numbers and abbreviations to count as words. Minimum charge, \$1.00. Remittance must accompany copy. These will be set in 6 point Roman; no display type.

**Deadline:** Copy must be received by the 10th of the month to insure insertion in the following month's issue.

**Miscellaneous:** Please furnish copy separately from your letter of transmittal. Advertising copy included in the body of a letter usually has to be re-typed for the printer; this should not be required.

Advertising copy should be prepared with minute care. Carelessness invites error—something which both advertiser and publisher are anxious to avoid. Use only one side of the sheet.

In the absence of an Advertising Contract, when payment in advance for any number of consecutive months has been made, if change of copy has not been received by the 10th of the month for the next issue, the latest preceding advertisement will be run.

Advertisers may use a trade name, but, except in the case of an incorporated concern, the name of the proprietor or of some other responsible person connected with the firm must also appear in the advertisement.

The right to edit copy, to require payment in advance, and to decline any advertisement is specifically reserved. Superlatives prohibited.

THIRTY-SECOND ISSUE OF  
THE SOCIETY OF MEDALISTS

Berthold Nebel, Sculptor

## ANNOUNCEMENT

Illustrated on the opposite page is the 32nd issue of The Society of Medalists from models by Berthold Nebel.

This timely sculptured message about the Atomic Bomb has just been issued to the membership of the Society and it is one which will commemorate an awesome, but vitally significant event to every American.

By joining for the current year, this medal is available to new members as the most recent previous issue of the Society. It is priced to members only at \$4. Its companion piece for 1945 is the historic Iwo Jima medal illustrated on these pages recently. These two issues comprise a fitting memorial of the epic period through which we have just passed.

Dues in the Society are \$8 annually, for which the Society's members receive each year two bronze medallions, designed and modeled by America's leading sculptors.

Write for literature illustrating the 32 medallions so far issued by the Society, whose chief objective is to develop appreciation of American sculptors and their work in the medallic field. We will send you complete information on how you may become a member.

## *BEN'S BETTER BUYS*

### DELUXE U. S. GOLD TYPE SET

This set of 8 pieces includes the scarcer fractional varieties not many times found in type sets. All are the same Liberty Head design, which present uniformity and beauty. Some of the coins date back to the civil war period. Condition on all pieces extremely fine or better. Consists of  $\$1/4$ ,  $\$1/2$ ,  $\$1$ ,  $\$2\frac{1}{2}$ ,  $\$3.00$ ,  $\$5.00$ ,  $\$10.00$ , and  $\$20.00$ . Mounted in a specially made holder size 6x9 inches visible on both sides. Price  $\$135.00$ .

### INDIAN HEAD SET

Complete from 1857 through 1909-S. The Flying Eagles, and Copper Nickels, are just as brilliant and sharp as the late dates. Truly a beautiful matched set. Price  $\$300.00$ .

### BARBER HALF DOLLAR SET

Some call this the Morgan Half. Whatever you may call it we would guess that you never saw a prettier set anywhere. It includes the rare 1892 microscopic O for which we have been offered  $\$350.00$  alone. No sale—it goes with the set. The scarce 1901-S is not common either. Besides that, try to buy some of the S and O mints dated before 1900 in brilliant uncirculated condition. The entire set, visible at one glance, is mounted in a special holder. Price  $\$1500.00$ , and worth more.

### 1936-42 U. S. PROOF SET

For the collector who is fussy, and wants a choice set that is not dull or dingy, here it is. Each of the 7 sets mounted in holders. Price  $\$125.00$ .

### PEACE DOLLAR SET

Complete set from 1921 through 1935 with all mint marks. Brilliant uncirculated, and in Wayne Raymond Holder. Price  $\$65.00$ .

### LIBERTY HEAD NICKEL SET

A complete set in GLITTERING PROOFS. The 1912-S and D which do not come in proofs, are also included in this set in brilliant gem uncirculated condition. In album pages, of course. Our price is  $\$260.00$ , but the set will be worth  $\$300.00$  before you know it.

### ONE OF THE RAREST PIECES IN FRACTIONAL CURRENCY

The autograph signatures of ALLISON and NEW, (#56 in Catalogue) is considered one of the rarest pieces. The 1943 Supplement prices this at  $\$600.00$ . There has not been a paper money catalog issued since then. We have one in perfect crisp condition, for only  $\$390.00$ . A splendid item for investment as well as to fill the space in the collection.

## *Talk of Buying—*

### THE RARE

## 1870-S \$3.00 GOLD PIECE

Recently advertised for sale at \$25,000 was purchased by us—and, of course, the same day we bought many other important and minor items. The collector who brought us his collection of Nickels, or the chap who sent us one proof silver Dollar, received the same courteous consideration—for which STACK'S has become famous.

This advertisement is directed to the collector who has some idea of disposing of his entire collection, portions of it, or even a single item. The selling prices are high today and, naturally, you can receive much more for your coins than ever before.

STACK'S has one of the most important clienteles in the numismatic field, plus fully adequate resources. May we hear from you?

## WANTED FOR CASH PURCHASE

**RARE COIN COLLECTION VALUED UP TO \$100,000.00—AND I DO NOT EXPECT ANY BIG BARGAINS THESE DAYS. DESCRIBE AND PRICE WHAT YOU HAVE TO SELL. NO DEALER PAYS MORE. NO AUCTIONS, NO GUESSING, AND NO WAITING. I BUY AND SELL FOR CASH.**

BRADBEER'S "Confederate and Southern State Currency." Reprint limited to 1000 copies. The original has only 162 pages, the reprint 191; the former has sold up to \$50.00; the reprint is worth twice as much, since it has many more illustrations and much additional information. Post paid in the U. S. (Liberal discount to dealers in lots 5 copies) .....\$5.00

"Crosby's Early Coins of America." Reprint limited to 500 copies. The only standard reference for all Colonial coins. A facsimile reprint, both text and plates. Bound in green fabricoid with title in gilt on backstrip. This book comes in special made carton, either parcel post or express as you prefer. Liberal discount to dealers in lots of 5 copies. Prepaid in the U. S. ....\$20.00

I was one of a large number of dealers and collectors who attended Mr. Kosoff's sale of the famous gold coins, and purchased a good number in competition with the best posted collectors and dealers of the U. S. Don't you think it worth while to write me, quoting prices now while the market is the best ever known in the world? You can likely sell your collection at a very nice profit; and the income tax has been reduced. THINK IT OVER.

Time and space does not permit me to list 10% of the many coins I have in stock. I do have many coins selling less than \$1.00, and a few selling at more than \$1,000.00 each, so there is a coin to fit each purse and collector's taste. I shall try to run a three or four page ad next month and offer many choice items.

## FOR MY PERSONAL LIBRARY

Murdock Collection (several catalogues) sold in London about 40 years ago. Also Spink's "Numismatic Circular." I want these to complete my library for the present, at least. I might add I just bought the Jas. G. Macallister library in competition with a good number of collectors and dealers, so you see I really pay top prices.

What have you to sell in U. S., foreign or Ancients, gold, silver or bronze? Yes, I also buy nickel coins, ROLLS AND SINGLE ITEMS. Please save time for all concerned by describing and pricing your material. I price mine only.

## *"A" Day is Coming!*

Spring 1946

"A-DAY" is the long expected moment when the answer to every coin-lover's prayer becomes at last a reality.

"A-DAY" is ALMANAC DAY, the day the new surprise package arrives, taking the problems out of coin collecting, leaving only the pleasures.

"A-DAY," ALMANAC DAY, those interested in coins will be able to obtain that one volume library, reference work and information booth, all rolled into one, which they hoped some day, somewhere, would be published.

Well, the "some day" is NOW, and the "somewhere" is right here in our own United States, where "No-can-do" is not in the dictionary.

### **THE COIN COLLECTORS' ALMANAC**

A linen bound, fully illustrated, easy to read, easy to use handbook of unsurpassed practical value.

THE COIN COLLECTORS' ALMANAC may be ordered directly from the publisher, Hans M. F. Schulman, 545 5th Avenue, New York, or through your local numismatic dealer. Price, postpaid ..... \$3.00

## COLLECTIONS

Each of the collections numbered and described below is to be sold intact. If you are contemplating a change in your collecting specialty, look them over. All will make fine foundations on which to build your collection.

### #1 COLLECTION OF TOKENS AND MEDALS OF FAMOUS AMERICANS:

This collection is divided into three parts, none of which overlaps. There are no duplicates. In each of these sections, as well as in the collection as a whole, at least 95% of the specimens are in proof, uncirculated, or extremely fine condition.

The Washington section contains about 1025 pieces, of which about 775 were issued prior to 1885, and are attributed to Baker. There are many very rare pieces, some being unique. There are about 120 in silver, 400 in copper, 180 in brass, 230 in white metal and others in copper-nickel, nickel, lead, aluminum and silver plate. Notably in this collection there are five Manly medals, three of which are in silver; the Halliday medal in silver, of which only two are known; two different pieces of the General of The American Armies, each in about the best condition known, and worth in excess of \$100.00 each.

The political section contains about 1200 pieces. These include all candidates for the Presidency of the United States, and many of the candidates for the Vice Presidency. There are about a dozen ferrotypes and shells. Of these one is in gold, 85 in silver, 330 in copper, 330 in brass, 330 in white metal and others in nickel, aluminum, copper-nickel and lead. Many rare pieces are included in this group.

The third section contains 350 pieces, with busts of Americans not included in any of the foregoing sections, and contains many rarities. The entire collection totals 2,575 pieces.

### #2 COLLECTION OF CIVIL WAR TOKENS AND CARDS:

An unusual collection of these interesting tokens. Contains approximately 1400 specimens, many in metals other than copper, and many rare pieces. Condition averages extremely fine. Contains no junk or duplicates—all pieces will grade very fine or better. Included with the tokens is a copy of Hetrich-Gutttag and an all steel cabinet. If you have wanted to collect this series, here is a fine start.

### #6 COLLECTION OF MINOR COINS OF THE WORLD:

An outstanding collection of approximately 1,000 pieces, with at least half in uncirculated condition. The coins of Great Britain and Ireland are not included but it covers about every country that has issued minor coins. Contains many sets that would be impossible to complete today. Contains no tokens or junk—every piece is a coin. Each piece is in an envelope and properly classified.

We are prepared to answer your questions and quote prices on any of the collections listed above. If you are interested—WRITE.

Pattern coins are becoming more and more popular. The supply is very limited because very few were struck. For instance "R-12" means that only six to eight were struck, "R-15" is "Unique," and even "R-2" indicates only 301 to 500 struck. Few dealers advertise these, probably because they have none or only a few in stock. I have just one each of these items, so get your order in right away.

M. R. BROWN, Numismatist

## REMEMBER ME?

I like to think at least some of my old friends will. I am one of those pre-war dealers who is returning to his true love. No, I'm not a veteran, I'm just a lowly 4-F'er who was "drafted" to handle his brother's business "for the duration." Now, I am completely at your service, and sincerely looking forward to the pleasure of renewing old friendships and making new ones.

**SPECIAL NOTICE TO DEALERS:** Please put my name on your mailing list. Also, please note my new address.

As a re-introduction to these pages, I am proud to offer the following select pieces of:

### SATISFACTION GUARANTEED

Of course I want to buy nice coins of all series. And, incidentally, if you can duplicate any of these pieces, please let me hear from you. Three parties may benefit thereby.

Tatham Stamp & Coin Co.  
Springfield, Mass.

Dear Sirs:

Please accept my thanks for your  
courtesy of February 27, enclosing  
a check for about 60% more than I  
had asked for my coins. I like such  
square dealings as yours and you may  
be sure that if at any time I have  
coins for sale, I will send them to  
you as I know you now as a high type  
responsible concern with whom it is  
a pleasure to do business.

Yours Truly,

V.C. Rockhill

This letter is typical of the unsolicited testimonials we receive from hundreds of satisfied sellers. If you have a stamp or coin collection or some duplicates which you wish to sell, we know your experience will be just as satisfactory as hundreds of others who have sold us in the past. When you are ready to sell, it is to your advantage to write us. Send for our 24-page booklet entitled "Before You Sell." It may mean extra profits to you.

## *The Only Collection of its Kind*

A COIN HISTORY OF OUR 32 PRESIDENTS . . .

### AN OUTSTANDING ACHIEVEMENT IN MEDALLIC ART

The dies for these Presidential Medallions were modeled in bas-relief from best portraits obtainable. The splendid likeness of each is a work of art, which has commanded the praise of some of the most critical sculptural connoisseurs. The brief biography of each President on the reverse side of Medallions makes this series a most interesting and complete historical set.

This unusual set of Presidential Medallions lends itself most admirably to any library table. It is an educational creation that will be treasured and handed down from one generation to another. The 32 Medallions are made of gold color bronze in two tone effect and are mounted in a beautiful, expensive-looking display case.

### THOUGHTS FOR 1946 (May It Be a Happy One)

CURATORS is a more fitting term for COIN COLLECTORS or NUMISMATISTS. The excellent state of preservation of the coins in our collections today are the result of care given them by our forebears, and the advance made in plastic holders of the present is our contribution toward passing along well preserved coins for future generations. There should be no stalemate in the coin hobby. Circulation in the body means life, and coin turnover is the life of the coin business. Sell when everybody is buying. Buy when everybody is selling. If afraid of buying more because present prices may fall, then sell your odd pieces of any series you despair of completing into full Sets. I BUY odd pieces to complete collections, and break up collections to enable others to complete nearly complete sets of coins. So let us get together for mutual profit and friendship. Barter is a natural instinct to which coin collecting gives an outlet, just as we all have an urge for hunting, fishing, and boating.

HEALTH is the keystone on which rest all our pleasures. Remember to give it a little thought and consideration to build it up and preserve it just as we do for other material things which we enjoy.

Set of Mercury Dimes, 1916 to 1945-P-D-S for \$23. Average FINE condition. Set of Barber Quarters, 1892 to 1916-P-D-S-O for \$85. Average FINE condition.

Sets of Liberty Standing Quarters, 1916 to 1930-P-D-S for \$75, \$90, \$105, \$130. Average FINE to about uncirculated.

Set of Barber Halves, 1892 to 1915-P-D-S-O for \$85. Average FINE condition.

Set of Liberty Standing Halves, 1916 to 1945 for \$85. Average FINE condition.

## Dealers:

We were fortunate in discovering a very large accumulation of large Canadian cents of all dates. All the mutilated have been taken out. The rest range from good to extremely fine condition. These coins have been obsolete now for 26 years, and are simply not seen around. While they last, we offer them in bags of 1,000, at \$25.00 U. S. funds transportation extra.
